Statement of Accounts 2023/24

The Statement of Accounts 2023/24 can be made available in large print, Braille, tape format or other languages upon request.

South Hams District Council is committed to reflecting the full diversity of our community and to promoting equality of opportunity for everyone.

Section 1

Narrative Statement

Introduction to the 2023/24 Statement of Accounts by Councillor Julian Brazil, Leader of South Hams District Council and Andy Bates, Chief Executive

As the Leader of the Council, I am pleased to welcome you to the 2023/24 Statement of Accounts for South Hams DC. Following the elections in May 2023, we have developed a council plan reflecting the priorities of our residents and ambitions of the new Liberal Democrat led administration.

This new plan sets out a clear long-term vision for our place, supported by detailed annual delivery plans. They are very much a vision of people and place, going beyond the core services of the Council, reflecting the opportunities and challenges faced by residents and businesses. They embrace a broad range of ambitions and actions, many of which will be delivered in

collaboration with our key partners.

We will provide leadership and take direct action to tackle climate change and biodiversity loss. South Hams was ranked 13th nationally amongst District Councils on its strategic plans which were independently reviewed by Climate Emergency UK. The housing crisis continues to be a significant concern for many local people and the provision of affordable and social housing is a key priority for the Council moving forward. The Council has built eight affordable homes at St Ann's Chapel near Bigbury and we have also taken the opportunity to lever in Government funding through the Local Authority Housing Fund (LAHF) to purchase 11 new build homes for refugees and temporary accommodation as a secondary use.

In March of this year, we invited the Local Government Association (LGA) to undertake a Peer Challenge of both South Hams District Council and our shared services partner, West Devon Borough Council. **Their key finding was that 'South Hams is a high performing council, which is well led and managed and is delivering consistently well on behalf of its communities'**. The report pointed to the key significance of the partnership arrangements between South Hams and West Devon supported by a single workforce, and integrated systems and process, and concluded that 'it is this joint working that is at the heart of a highly productive organisation'. The report also highlighted the Council's sound financial management. The report stated that 'the Council has an excellent track record of financial management and planning, which is one of its underpinning core strengths'.

We are proud of the findings of the LGA report and its recognition of our work to date, and we will continue to build on those strong foundations to make the South Hams the best it can be for our residents, businesses and communities.

The peer team commented on our good organisational leadership, robust governance and effective performance culture which is delivering improved outcomes. We would like to thank all of our councillors, staff and partners who have delivered this together. We have finished the year with our finances reporting a small surplus of £29,000 against budget (0.25% of a £11.738m net budget for 2023/24) which puts us in a good position for the year ahead. The Council is on a stable financial footing, and this will help it to navigate the uncertainty of the future local government funding reforms including the fair funding review, changes to new homes

bonus scheme and the planned business rates baseline reset.

Councillor J Brazil, Leader of the Council

Andy Bates, Chief Executive

NARRATIVE STATEMENT – INTRODUCTION

- Each year South Hams District Council publishes a Statement of Accounts that incorporates all the financial statements and disclosure notes required by statute. The Statement of Accounting Policies summarises the framework within which the Council's accounts are prepared and published.

REVIEW OF THE YEAR – THE REVENUE BUDGET

- The 2023/24 budget for South Hams was £11.738 million. A surplus of £29,000 means that the actual net spend was 0.25% less than the budget. This is essentially a break-even position.*** This surplus of £29,000 will go into the Council's Unearmarked Reserves. The main components of the General Fund budget for 2023/24 and how these compare with actual income and expenditure are set out below:

	Budget £000	Actual £000	Difference Cost/ (Saving) £000
Cost of services (after allowing for income and reserve contributions)	12,538	14,042	1,504
Interest and Investment income	(800)	(1,903)	(1,103)
Amount to be met from Government grants and taxation (excluding parish precepts)	11,738	12,139	401
Financed from:			
Business Rates (baseline funding level)	(1,928)	(1,928)	-
Business Rates (achieved over baseline funding level)	(520)	(520)	-
Business Rates Pooling Gain	(300)	(369)	(69)
Council Tax (excluding parish precepts)	(7,407)	(7,407)	-
Surplus on Collection Fund	(332)	(332)	-
Rural Services Delivery Grant	(479)	(479)	-
Services Grant	(78)	(78)	-
Revenue Support Grant	(138)	(138)	-
Funding Guarantee	(694)	(694)	-
Less grants rolled into the Funding Guarantee	138	-	(138)
Business Rates – Renewable Energy Income	-	(207)	(207)
Business Rates Levy Surplus Grant	-	(16)	(16)
SURPLUS FOR 2023/24	-	(29)	(29)

3. Revenue expenditure represents the ongoing costs of carrying out day-to-day operations, and is financed from council tax, business rates, fees and charges, government grants and interest earned on investment activity.
4. In 2023/24, the Council generated £2.209 million of additional income and savings (equating to 18.8% of the Council's net budget of £11.738 million). This was from extra treasury management investment income (£1.1 million) by realising the opportunity from high interest rates and securing advantageous rates from reviewing market offers on a daily basis. The Council also generated additional car parking income (£0.39 million) primarily as a result of increased usage. Employment estates generated extra income (£0.309 million) due to high occupancy rates and the Council secured extra business rates income (£0.207 million) from identifying renewable energy sites. In addition, proactive management action resulted in salary savings from vacancies (£0.13 million).
5. This additional income and savings were offset by the fact that the Council also incurred additional costs and a shortfall in income of £2.18 million (equating to 18.6% of the Council's net budget of £11.738 million). Many of the additional costs were as a result of the current economic climate with high inflation and the cost-of-living crisis.
6. The extra costs incurred in the year included the impact of the national local government pay award (£0.56 million), the waste and cleansing service (£0.38 million) and temporary accommodation costs (£0.26 million). In addition, there was an increase in the overall bad debt provision for debtors (£0.23 million) and higher inflation than budgeted mainly in respect of IT, utilities and insurance totalling £0.39 million. The Council also experienced a shortfall in planning income of £0.12 million.
7. **Therefore, there was an overall surplus of £29,000 on the outturn position for 2023/24.**

8. A summary of the main variances to budget in 2023/24 is provided below:

ANALYSIS OF VARIATIONS 2023/24 (% column shows variation against budget)	£000	% variation
Reductions in expenditure/additional income		
Treasury Management Income – extra investment income of £1.1m on the Council’s investments (on a budget of £0.8m), from higher interest rates and effective proactive management of the Council’s daily cashflows and investments. The Council secures advantageous rates from reviewing market offers on a daily basis.	(1,103)	(137.9%)
Car parking pay and display income – additional net income primarily from extra usage.	(387)	(11.3%)
Employment estates – additional income of £0.309m over the budgeted income of £1.117m, due to high occupancy rates.	(309)	(27.7%)
Business Rates – income from identifying renewable energy sites, allowing SHDC to retain all of the business rates income from these sites in accordance with legislation.	(207)	-
Salaries – management action to secure vacancy savings.	(134)	(1.2%)
Business Rates – additional business rates pooling gain achieved over the budgeted amount of £300,000.	(69)	(23.0%)
Sub – total	(2,209)	
Increases in expenditure/reduction in income		
National local government pay award – the national employer’s pay offer for 2023/24 of £1,925 per scale point or a 3.88% increase for scale point 44 upwards, was significantly higher than the budgeted provision of 3%. The pay award resulted in additional salary costs of £559,000 including £320,000 for the waste and cleansing staff.	559	200%
Waste and Cleansing – the overspend of £0.384m equates to 4.9% of the net budget of £7.74m. The Council rolled out the Devon Aligned Service in November 2023 (as detailed in the Executive report of 7 March 2024). There were more recycling and refuse rounds than initially anticipated. There were also inflationary rises, for example for the cost of agency staff and a reduction in the price being able to be achieved in the sale of recyclate due to the downturn in the economy.	384	4.9%
Homelessness (temporary accommodation) costs – additional expenditure on temporary accommodation over and above what is claimable through the DWP subsidy. This is due to a number of factors beyond the Council’s control such as the housing crisis and a lack of accommodation. The budgeted amount was £339,000. This represents an increase in costs of 77% over the amount that is budgeted.	261	77.0%
Bad debt provision – increase in the level of the provision for bad and doubtful debts (overall provision of £0.769m).	226	-
Planning – planning income is down by £120,000 (11%) against the budgeted income target of £1.08m. In addition, advertising costs were £52,000 higher than budgeted. Along with other small variances this produces an overall variance of £189,000 which equates to 19.4% of the net planning budget of (£973,000).	189	19.4%
ICT software and support contracts – additional costs of £155,000 due to price increases which equal or exceed inflation (budgeted amount of £558,000).	155	27.8%

ANALYSIS OF VARIATIONS 2023/24 (% column shows variation against budget)	£000	% variation
Higher inflation on utility costs on all Council services – an increase in utility (mainly electricity) prices due to the rise in energy costs and inflationary pressures (budget of £1.2m).	121	10.1%
Additional Insurance costs – higher insurance costs (budgeted amount of £434,000).	118	27.2%
Follaton House – additional business rates and cleaning costs.	79	27.3%
External audit fees – additional fees agreed by Public Sector Audit Appointments (PSAA) and charged by Grant Thornton. This was partly for additional audit work carried out nationally, on the areas of pensions and fixed assets.	63	52.2%
Other small variances	25	-
Sub – total	2,180	
Other one-off adjustments		
Housing Benefit debtors adjustment (see Note 1 below) – a write down of the housing benefits debtors balance at 31 March 2024 was required to reflect the correct balance – this is a one-off adjustment at the year end. The debtors balance reduced from £417,000 to £221,000. This reduction of £196,000 was partially offset by a decrease in the Housing Benefits bad debt provision of £21,000. The one-off adjustment follows the implementation of an external audit recommendation as part of the 22/23 Accounts to address this issue in the 23/24 Accounts. This resulted from a report run from the NEC system which was showing an incorrect balance for housing benefits debtors. This was a system error which has now been put right. Many Councils have had the same issue with the NEC software (revenues and benefits system).	175	-
Household support scheme admin grants – grants received in 2023/24 which are available to finance the one-off cost of the housing benefit debtors adjustment.	(84)	-
Other new burdens grants – grants received in previous financial years which have been brought into the Income and Expenditure account in 23/24, to finance the one-off cost of the housing benefit debtors adjustment.	(91)	-
TOTAL SURPLUS FOR 2023/24	(29)	(0.25%)

The 2023/24 Budget for South Hams was £11.738 million but the actual net spend was 0.25% lower, providing a surplus of £29,000 as shown above. This is essentially a break-even position. This surplus will go into the Council's Unearmarked Reserves which now stand at £2.14 million.

Note 1 - The net adjustment of £175,000 is a one-off cost to the Income and Expenditure Account. This adjustment has been funded from the household support scheme admin grants received in 2023/24 (£84,000) and other new burdens grants received in previous years (£91,000).

SUMMARY OF THE KEY ELEMENTS FROM THE CORE FINANCIAL STATEMENTS

The Comprehensive Income and Expenditure Statement (CIES)

9. The Comprehensive Income and Expenditure Statement (CIES) shows an overall deficit on the provision of services of £2.484 million. However, this position includes a number of technical accounting adjustments totalling £2.562 million which need to be 'reversed out' in order to reflect the final cash position. These entries are shown in the Adjustments between Accounting Basis and Funding Basis under Regulations (Note 7). The outturn position can be derived by deducting these technical adjustments (£2.562 million) and adding the increase in earmarked reserves (£49,000) to the deficit on the provision of services (£2.484 million), to arrive at the overall surplus of £29,000 on the General Fund in 2023/24.

The Movement in Reserves Statement

10. This statement is the key to establishing the aggregate financial position of the Council, as it produces a summary of all the "cash backed" reserves that the Council holds. It shows that the Council's usable reserves have decreased by £0.611 million to £20.255 million in 2023/24 (£20.866 million in 2022/23). This mainly relates to a reduction in the capital usable reserves of £0.689 million following the application of capital receipts and grants to capital expenditure in 2023/24.

Balance Sheet

11. The Council instructed a Valuer to undertake a valuation of its asset portfolio in accordance with a five year rolling programme (with ad hoc valuations taking place, for example where assets have been enhanced). In addition, a formal impairment review of the entire holding of land and buildings is undertaken at the end of each financial year, to ensure the carrying value reflects the fair value at the Balance Sheet date. The basis of valuation is set out in the Statement of Accounting policies in Note 38. The Property, Plant and Equipment valuation, after adjustment for additions and disposals, increased by £8.065 million during 2023/24. This is mainly due to Local Authority Housing Fund (LAHF) property purchases, waste vehicle replacement and St Anns Chapel housing scheme.

Cash Flow Statement

12. The Council had an increase in net cash during 2023/24 of £535,000.

KEY AREAS TO NOTE FROM THE 2023/24 STATEMENT OF ACCOUNTS

Shared Services

13. South Hams and West Devon have pioneered an innovative shared service partnership which started in 2007 with a shared workforce and integrated systems and processes across both Districts. This is generating annual on-going savings worth £6.2 million to South Hams and West Devon, compared to a traditional model, demonstrating excellent value for money and enabling the Councils to protect frontline service delivery.

Waste, recycling, street and toilet cleaning services

14. In 2023/24, there was a £2 million reserve contribution to fund exceptional transitional costs for bringing the waste and recycling service back in house in October 2022 and the one-off costs of implementing Devon Aligned Service.
15. This was referenced in reports to Council on 14 July 2022, 22 September 2022 and 14 December 2023 and had the support of the cross-party Waste Working Group. The £2 million was funded from the Business Rates Retention earmarked reserve. Performance has improved significantly.

Climate Change

16. The significant impact on our community of climate change and reduction in biodiversity were recognised when the Council declared a climate change and biodiversity emergency in 2019 and became a signatory, along with public, private and voluntary partner organisations, to the Devon Climate Declaration. Whilst playing a key role as part of the Devon Climate Emergency Response Group supporting the development of the Devon Carbon Plan, the Council recognised the need to move quickly and adopted its own strategy, supporting action plans and aims.
17. The Council's strategic plan was independently reviewed by Climate Emergency UK and rated 13th nationally among District Councils, accounting for identical scores. The latest review – on climate action, also ranked the Council within the top quartile.
18. Looking to lead by example, a key aim is to reduce the Council's organisational carbon emissions to net-zero by 2030. Having established a detailed understanding of the Council's greenhouse gas emissions, an organisation decarbonisation study has been developed and resources identified to work towards this aim.

Housing Crisis

19. Within the South Hams, house prices are comparatively high. The Joint Local Plan has provided the policy framework to ensure that we have continued to deliver and indeed exceed our national housing delivery targets, with a current land supply of 5.7 years and 105% delivery against our housing target.
20. The challenge of delivering local affordable housing remains. In 2021/22 the Council declared a 'housing crisis' and the delivery of affordable housing continues to be a key priority for the Council. The South Hams is an area that has a high proportion of second homes (1 in 12 homes in South Hams is a second home).
21. In South Hams, the Council has just completed construction of 8 genuinely affordable rental homes, the first "council houses" it has built since the 1980's, at St Anns Chapel. The Council has also taken the opportunity to gear in funding for the purchase of 11 new build homes through the Government Local Authority Housing Fund (LAHF) (8 properties in Sherford and 3 in Ivybridge) for refugees and temporary accommodation as a secondary use.
22. Launching the "South Hams Housing Offer" in late 2023, we have resourced a programme to accelerate delivery of affordable housing by our Registered Provider (RP) partners within the District. This programme aligns housing need, community support and landowners to leverage JLP policy for affordable housing exceptions sites, by doing early feasibility work to get a "de-risked" pipeline which our RP partners can then develop out – a partnership based on each partner doing what they do best to maximum effect.

Corporate Peer Challenge (Peer Review)

23. In March of this year, we invited the Local Government Association (LGA) to undertake a Peer Challenge of both South Hams District Council and our shared services partner, West Devon Borough Council. **Their key finding was that 'South Hams is a high performing council, which is well led and managed and is delivering consistently well on behalf of its communities'.**
24. We are proud of the findings of the LGA report and its recognition of our work to date, and we will continue to build on those strong foundations to make the South Hams the best it can be for our residents, businesses and communities.
25. As part of the LGA Peer Challenge, the Council wrote a Position Statement which summarised the Council's position against the criteria by which the Council was assessed.

26. A copy of the Council's Position Statement and the LGA's full report on the Peer Challenge is available at the following links: [Peer Challenge Position Statement](#) and [Peer Challenge Feedback Report](#).

Group Accounts considerations

Sherford Community Land Trust Limited

27. As part of the conditions of the S106 agreement for the new town of Sherford a limited company was created on 13th July 2018 to handle the various requirements of the S106 agreement. The company is limited by guarantee without share capital. It has seven directors, made up of one representative from each of the local authorities (South Hams District Council, Plymouth City Council and Devon County Council) and one representative from each of the developers. Group accounts are not required to be prepared as the Council's interest is below 20% and therefore it does not have enough influence to be an associate.

Plymouth and South Devon Freeport

28. The Plymouth and South Devon Freeport is a private company limited by guarantee which was incorporated on 16 May 2022. Plymouth City Council is the accountable body for the Freeport. For the purposes of Group Accounting, the Freeport has been assessed as a joint venture as no single member or two members working together can make decisions. Control can only be exerted by all three members acting jointly. Group accounts are not required to be prepared in 2023/24 on the basis of materiality.

Borrowing

29. In 2023/24 the long-term borrowing of the Council reduced from £13,825,000 (2022/23) to £13,364,000. Short term borrowing increased from £459,000 to £461,000. This is due to the profiling of the debt repayments where long-term borrowing has moved to short term borrowing. Total borrowing as at 31 March 2024 has reduced from £14,284,000 to £13,825,000. No further external borrowing took place during 2023/24.
30. The average fixed rate of interest on the borrowing is 2.547%.

Capital spending

31. The Council spent £9.66 million on capital projects in 2023/24. The main areas of expenditure were as follows:
- Purchase of 8 properties in Sherford (£2.31 million) for refugees and temporary accommodation, utilising Government Local Authority Housing Fund grant funding
 - Purchase of waste fleet vehicles (£1.74 million)
 - Residential renovation grants including disabled facilities grants (£1.50 million)
 - St Ann's Chapel housing scheme (£0.94 million)
 - Purchase of 3 properties in Ivybridge (£0.85 million) for refugees and temporary accommodation, utilising Government Local Authority Housing Fund grant funding
 - Torr Quarry depot improvement (£0.35 million)
 - Batson Harbour Depot (£0.33 million)
 - Affordable Housing – purchase of Westville Flats (£0.15 million)

The capital programme is funded from capital receipts, capital grants, external contributions and earmarked reserves (please see Note 32).

FINANCIAL NEEDS AND RESOURCES

Revenue Reserves

32. The Council maintains both capital and revenue reserves. The provision of an appropriate level of balances is a fundamental part of prudent financial management, enabling the Council to build up funds to meet known and potential financial commitments.
33. The General Fund Balance (unearmarked reserve) has increased by £29,000 in 2023/24 following the surplus generated in year and totals £2.142 million at 31 March 2024. Revenue reserves may be used to finance capital or revenue spending plans. The level of Reserves are assessed as adequate for the Council's operations.

34. The movement in the General Fund Balance is shown in the Movement In Reserves Statement in Section 2B and can be summarised as follows:

General Fund Balance	£000
General Fund Balance (unearmarked revenue reserve) at 1 April 2023	2,113
Surplus for the 2023/24 financial year	29
General Fund Balance (unearmarked revenue reserve) at 31 March 2024	2,142

35. Earmarked Reserves have increased by £49,000 in 2023/24 moving from £15.424 million on 1 April 2023 to £15.473 million at 31 March 2024 as shown in the table below:

Earmarked Revenue Reserves	£000
Earmarked Revenue Reserves at 1 April 2023	15,424
Additions to Earmarked Reserves	7,794
Actual Spend of Earmarked Reserves	(7,745)
Earmarked Reserve Reserves at 31 March 2024	15,473

36. The General Fund reserves (which are made up of the General Fund Balance and Earmarked Reserves) have increased by £78,000 from the preceding year and stand at £17.615 million at 31 March 2024. This reflects the increase in Earmarked Reserves of £49,000 and the 2023/24 surplus of £29,000. Revenue reserves may be used to finance capital or revenue spending plans.

Total General Fund Reserves (Unearmarked and Earmarked Reserves)	£000
Total General Fund Balance at 1 April 2023	17,537
Movement in Earmarked Reserves	49
Surplus for the 2023/24 financial year	29
Total General Fund Reserves at 31 March 2024	17,615

The financial metric (Reserves as a % of net revenue spend) is shown below:-

For 2022/23 this equated to £17,537,000/£10,407,000 = 168.5%

For 2023/24 this equated to £17,615,000/£11,709,000 = 150.4%

Capital Reserves

37. Capital Reserves are represented by capital receipts and capital contributions unapplied. The balance at 31 March 2024 amounts to £2.64 million compared to £3.33 million at the end of the previous year.

Unusable Reserves

38. There are a number of Unusable Reserves which include the Revaluation Reserve, Capital Adjustment Account, Financial Instruments Revaluation Reserve and Pensions Reserve which are subject to complex accounting arrangements. The Revaluation Reserve and Capital Adjustment Account are used primarily to account for changes in fixed asset values associated with revaluations and new capital expenditure and as such cannot be used to finance capital or revenue expenditure.
39. When reviewing the amount of overall reserves held, consideration should be given to the possible implications of the Pension Fund deficiency disclosed within the notes to the balance sheet. The requirement to recognise the net pension position in the balance sheet has reduced the reported net worth of the Authority by £2.214 million at 31 March 2024. This disclosure follows the implementation of the International Accounting Standards (IAS19). This standard requires local authorities and other businesses to disclose pension assets and liabilities within the balance sheet.
40. It is important to gain an understanding of the accounts to appreciate the nature of this reported position, which is based on a “snapshot” of pension assets and liabilities at the year end. This is quite different from the valuation basis used for the purposes of establishing the employer’s contribution rate and fund shortfall, which are calculated using actuarial assumptions spread over a number of years.

Pension Liability

41. International Accounting Standard 19 (IAS19) requires local authorities to recognise pension assets and liabilities within their accounts. ***The overall impact on the General Fund of the IAS19 entries is neutral.*** The Net Cost of Services within the Comprehensive Income and Expenditure Statement includes current service costs and past service costs. Net Operating Expenditure includes the Council’s share of the return on pension’s assets and the net interest cost of the Council’s liability due to under-funding.
42. During the autumn of 2022 the Actuary undertook the latest 3-yearly review of the Pension scheme and costs; with the next review due in 2025/26. The Local Government Pension Scheme has been reviewed nationally to ensure it meets the objectives of being viable and acceptable to both employees and the employer.

43. The pension liability has increased slightly from £2.19 million at 31 March 2023 to £2.21 million at 31 March 2024. However, these figures include the application of an asset ceiling by the actuary in 2022/23 and 2023/24. This accounting treatment complies with IFRIC 14 which looks at the limit on a defined benefit asset, the minimum funding requirements and their interaction. The liability position as at 31 March 2023 and 31 March 2024 purely recognises the fact that the Council will still need to pay employer's pension contributions into the pension scheme on an annual basis. It is important for Members to note that the adjustment to the pension position is made to better reflect the practical operation of the funding strategy. It does not indicate that the Council has paid money into the pension fund that it will never benefit from.
44. The asset ceiling is the present value of any economic benefit available to the Employer in the form of refunds or reduced future employer contributions. Below is a reconciliation of the asset ceiling as at 31 March 2024:

Reconciliation of the asset ceiling	31 March 2023 £000	31 March 2024 £000
Opening impact of asset ceiling	-	2,353
Interest on impact of asset ceiling	-	113
Actuarial losses/(gains)	2,353	9,575
Closing impact of asset ceiling	2,353	12,041

45. The Council's liability relating to the Devon County Council defined benefit pension scheme is included within the Balance Sheet and further details are shown in Note 35. The pension liability is a snap-shot valuation in time, based on assumptions. The true value is assessed on a triennial basis by actuaries, with the contribution rates set to recover the pension balance over the longer-term.
46. The amount the Council contributes to the Pension Fund is re-assessed every three years; the most recent review was in the autumn of 2022 and took effect from April 2023. The Council has adjusted its pension contributions in line with the Actuary's recommendations, which have been factored into the Medium Term Financial Strategy (MTFS).

LOOKING FORWARD TO THE FUTURE AND NEXT STEPS

Our financial future

47. The financial standing of the Council is secure in the immediate future, but there is still much work to do to ensure the long term financial sustainability of the Council. The Fair Funding Review, business rates baseline reset, and other funding reforms now look set to be pushed back to 2026/27 at the earliest. In addition the timing of the cessation of the current New Homes Bonus scheme is not clear, but if it does continue, it will be smaller in value with no historic legacy payments.

Going Concern

48. As highlighted above there is a high degree of uncertainty about future levels of funding for local government. However, the S151 Officer is keeping a close watch on developments and planning for this longer-term uncertainty. The Council has a strong track record of financial prudence and as a result has set aside a prudent level of Reserves.
49. Based on the S151 Officer's management assessment (which has included consideration of the Government support available, the Council's current level of reserves, the level of working capital including cash and investments, a sensitivity analysis on forecast cashflows, income from local taxation and borrowing headroom etc.), there is no material uncertainty and as a result the Accounts for 2023/24 are prepared on a going concern basis.

The Council Plan

50. During 2023/24, there was a focus on developing our priorities for the next 4 years, building on the foundations of our Better Lives for All strategy (2018 – 2023).
51. Throughout the summer, Councillors were supported by Officers to define their priorities and identify specific projects to be delivered in support of them. A draft Council Plan was considered in September with a public consultation taking place throughout later September and October. The consultation included an online survey, social media 'quick polls', conversations with key partners and seeking the views of our Town and Parish Councils. It also included a series of roadshow events where we engaged with the public to shape our plans.
52. The development of the Council Plan was carried out in parallel with an in-depth review of the Council's reserve and capital programme. This enabled the realignment of £2.554m of funds to support the emerging delivery plans. The £2.554m consisted of £1.541m of revenue earmarked reserves and £1.013m of capital funding.

53. The plans were considered alongside the budget in February 2024 and adopted. They now form our strategic framework for the period 2024-2028.

Council Priorities 2024-2028

Below are the Council Priorities up until 2028.

Annual Governance Statement (AGS)

54. The Council's Annual Governance Statement sets out the arrangements for governance which the Council has in place. The AGS is published alongside the Accounts for 2023/24.

Issue of the Accounts

55. The Corporate Director for Strategic Finance authorised the unaudited Statement of Accounts 2023/24 for issue on 15 July 2024. Events taking place after this date are not reflected in the financial statements or notes.

CORPORATE PERFORMANCE FOR 2023/24

56. Progress against specific activities in the Council Plan (for 2023/24 'Better Lives for All) have been reported to the Executive on a regular basis. Key Performance Indicators have been reported to the Overview and Scrutiny Committee throughout the year and reviewed by the Officer Performance Board on a monthly basis. Where required, Heads of Service have attended the Performance Board to explain any measures which are not on target.
57. Throughout 2023/24, the Council has focused on further enhancing its performance management framework. We have reviewed our Key Performance Indicators and made recommendations to Councillors as to enhancements to the measures for the coming year.
58. In March 2024, the Local Government Association carried out (at our request) a Peer review of the Council. Having considered our performance data and performance management arrangements, the concluding report from the LGA team stated that South Hams District Council is a high performing Council that delivers for its residents.
59. The latest Key Performance Indicator report was considered by the Overview and Scrutiny Committee at its meeting on 14 March 2024 covering the period April 2023 - January 2024. A summary of the performance is as below and shows that the significant majority of KPI's were meeting required performance levels. There was an increase in missed bin collections over the festive period but overall performance is as expected. See paragraph 14 and 15 in the Narrative Statement.

Measure	Performance Achieved?	Measure	Performance Achieved?	Measure	Performance Achieved?	Measure	Performance Achieved?
% of FOI requests handled within timescales	✘	% of cases where homelessness was prevented	✔	Council tax collection	✔	Revs & Bens calls answered in 8 mins	!
Ombudsman Cases Received and Upheld	✔	Employment Estate Occupancy Rates	✔	In-year collection rate for non-domestic rates	✔	Total calls	✘
% of major applications determined within 13 weeks, or with an agreed EOT	✔	Temporary Events Notices issued in timescale	✔	Number of missed bins per 100k	✘	Online Uptake	✘
% of non-major applications determined within 8 weeks or with an agreed EOT	✔	Average number of days to process new housing benefit claims	✔	Household recycling rates	✘		
Enforcement cases open at end of quarter	✔	Average number of days to process change in circumstances to housing benefit claims	✔	Contact centre calls answered in 5 mins	✔		

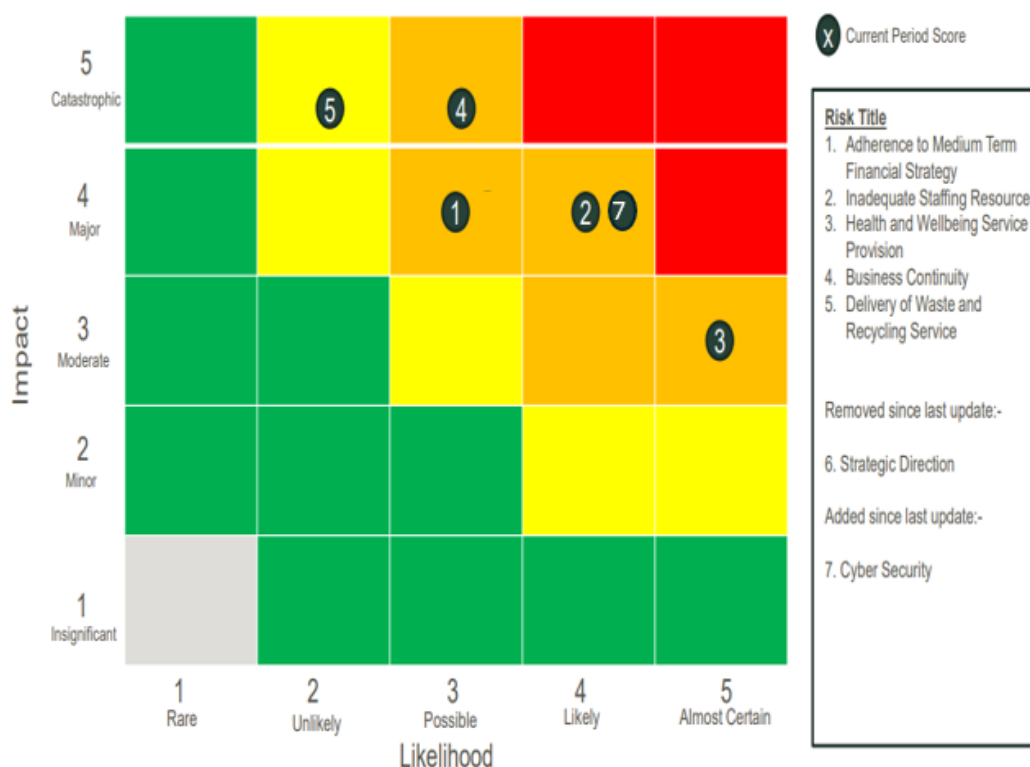

On or exceeding target
Off target by less than 5%
Off target greater than 5%

PRODUCTIVITY STATEMENT

60. All Councils are required by the Government to publish a productivity statement by 19 July 2024. The plans will help the Government to understand what is already working well across the whole country, what the common themes are and whether there are any gaps and what more the Government needs to do to unlock future opportunities. A copy of the Council's productivity statement is available at the following link: [Productivity Plan](#).

PRINCIPAL RISKS AND UNCERTAINTIES

61. During 2023/24, the Council reviewed its Risk and Opportunity Management Strategy, informed by Members of the Audit and Governance Committee. The new Risk and Opportunity Management Strategy was considered by the Audit and Governance Committee in December 2023 and recommended for adoption to Council.
62. There are clearly defined steps to support better decision making through the understanding of risks, whether a positive opportunity or a threat and the likely impact. The latest strategic risk update was presented to the Audit and Governance Committee on 14 December 2023 with a summary of the risk scoring as below.

Section 2

Core Financial Statements

SECTION 2A COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in both the Expenditure and Funding Analysis (Note 4) and the Movement in Reserves Statement (Section 2B).

2022/23			2023/24			
Gross Expenditure £000	Gross Income £000	Net Expenditure £000	Segment	Gross Expenditure £000	Gross Income £000	Net Expenditure £000
30,875	(18,826)	12,049	Customer Service and Delivery*	33,168	(19,259)	13,909
2,842	(956)	1,886	Strategic Finance	2,660	(1,009)	1,651
17,217	(12,515)	4,702	Place and Enterprise	16,860	(13,627)	3,233
6,200	(3,145)	3,055	Strategy and Governance	6,526	(2,921)	3,605
57,134	(35,442)	21,692	Cost of Services	59,214	(36,816)	22,398
		3,166	Other operating expenditure (Note 9)			3,424
		1,271	Financing and investment income and expenditure (Note 10)			(1,725)
		(19,507)	Taxation and non-specific grant income (Note 11)			(21,613)
		6,622	(Surplus) or Deficit on Provision of Services			2,484
		(4,481)	(Surplus) or deficit on revaluation of Property, Plant and Equipment			(3,192)
		(54,862)	Remeasurements of the net defined benefit liability			(793)
		979	(Surplus) or deficit from investments in equity instruments designated at fair value through other comprehensive income			(579)
		(58,364)	Other Comprehensive Income and Expenditure			(4,564)
		(51,742)	Total Comprehensive Income and Expenditure			(2,080)

*The increase in Customer Service and Delivery gross expenditure in 2023/24 of £2.3 million reflects the impact of the local government pay award in 2023/24. In addition the Council has incurred a full year of Waste and Cleansing salaries in 2023/24 compared to six months in 2022/23 following the return of the service in-house from October 2022.

SECTION 2B: MOVEMENT IN RESERVES STATEMENT

Movement in Reserves Statement

This statement shows the movement from the start of the year to the end on the different reserves held by the Authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other 'unusable reserves'. The Movement in Reserves statement shows how the movements in year of the Authority's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return to the amounts chargeable to council tax for the year. The 'Increase/Decrease in Year' line shows the statutory general fund balance movements in the year following these adjustments.

2023/24	General Fund Balance £000	Earmarked General Fund Reserves £000	Total General Fund Reserves £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000	Total Usable Reserves £000	Unusable Reserves £000	Total Authority Reserves 2023/24 £000
Balance at 31 March 2023 carried forward	2,113	15,424	17,537	2,920	409	20,866	87,948	108,814
Movement in Reserves during 2023/24

Increase/ (Decrease) in Year	57	(5,415)	(5,358)	(30)	(95)	(5,483)	57,225	51,742
Balance at 31 March 2023 carried forward	2,113	15,424	17,537	2,920	409	20,866	87,948	108,814

SECTION 2C BALANCE SHEET

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Authority. The net assets of the Authority (assets less liabilities) are matched by the reserves held by the Authority. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Authority may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Authority is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets were sold, and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

31 March 2023 £000		Notes	31 March 2024 £000
88,658	Property, Plant and Equipment	12	96,723
16,890	Investment Properties	13	16,220
245	Intangible Assets		149

87,948	Unusable Reserves	21	90,639
108,814	Total Reserves		110,894

The notes on pages 27 to 112 form part of these financial statements. The unaudited accounts were issued on 15 July 2024.

Lisa Buckle BSc (Hons), ACA
Corporate Director of Strategic Finance (Section 151 Officer)

SECTION 2D CASHFLOW STATEMENT

The Cash Flow Statement shows the changes in cash and cash equivalents of the Authority during the reporting period. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Authority are funded by way of taxation and grant income, or from the recipients of services provided by the Authority. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Authority.

2022/23 £000		2023/24 £000
6,622	Net (surplus) or deficit on the provision of services	2,484
7,430	Adjustments to net surplus or deficit on the provision of services for non-cash movements (Note 22)	(6,163)
2,650	Adjustments for items included in the net surplus or deficit on the provision of services that are investing and financing activities (Note 23)	4,912
16,702	Net cash outflows/(inflow) from Operating Activities	1,233
(7,309)	Net increase/(decrease) in Investing Activities (Note 24)	(9,173)
(1,121)	Net cash outflow/(inflow) from Financing Activities (Note 25)	7,405
8,272	Net (increase) or decrease in cash and cash equivalents	(535)
22,981	Cash and cash equivalents at the beginning of the reporting period	14,709
14,709	Cash and cash equivalents at the end of the reporting period (Note 17)	15,244

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

1. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Authority's Balance Sheet at 31 March 2024 for which there are significant risks of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
<p>Property, Plant and Equipment</p>	<p>Asset valuations are based on market prices and are periodically reviewed to ensure that the Council does not materially misstate its non-current assets.</p> <p>Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Authority will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets.</p> <p>The carrying value of Property, Plant and Equipment as at 31 March 2024 is £96.7 million.</p>	<p>A reduction in the estimated valuations would result in reductions to the Revaluation Reserve and/or a loss recorded as appropriate in the Comprehensive Income and Expenditure Statement. If the value of the Council's operational properties were to reduce by 10%, this would result in an impact on the financial statements of approximately £9.7 million.</p> <p>An increase in estimated valuations would result in increases to the Revaluation Reserve and/or reversals of previous negative revaluations to the Comprehensive Income and Expenditure Statement and/or gains being recorded as appropriate in the Comprehensive Income and Expenditure Statement.</p> <p>If the useful life of assets is reduced, depreciation increases and the carrying amount of the asset falls. If the depreciation lives of the assets were to reduce by 1 year across all assets, this would have an impact of approximately £166,000 on the Council's finances.</p>

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
<p>Pensions Liability</p>	<p>Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Authority with expert advice about the assumptions to be applied.</p> <p>The value of pension assets is estimated based upon information available at the Balance Sheet date, although these valuations could be earlier. The actual valuations at the Balance Sheet date, which may not be available until sometime later, may give a different value of pension assets, but this difference is not considered to be material.</p> <p>The Pension Fund's Actuary has provided updated figures for the year based on the last valuation in 2022. This valuation is based upon cash flow and assets values as at 31 March 2024.</p> <p>Contributions are set every 3 years as a result of the actuarial valuation of the fund required by the regulations. The next actuarial valuation of the fund will be carried out during 2025/26 (as at 31 March 2025) and will set contributions for the period from 1 April 2026 to 31 March 2029.</p> <p>The carrying value of the Pensions Liability as at 31 March 2023 is £2.2 million. See further information on the Pensions Liability in the Narrative Statement.</p> <p>Movements in the value of investments due to current economic uncertainty will affect the valuation of the pension liability. This will include the impact on the value of Investment Properties held by the Local Government Pension Scheme on behalf of South Hams District Council.</p>	<p>The effects on the gross pension liability of changes in individual assumptions can be measured. For example, a 0.1% increase in the discount rate assumption would result in a decrease in the pension liability of £1.6 million. However, due to the complexities in interactions with the asset ceiling this does not guarantee an equivalent change in the net position.</p> <p>The assumptions interact in complex ways. For example, in 2023/24, the Authority's actuaries advised that the pension liability as at 31 March 2024 has decreased by £1.7 million as a result of a change in "financial assumptions" and it has decreased by £1.6 million as a result of a change in "demographic assumptions".</p> <p>Please refer to Note 35 for further information about the assumptions used by the actuaries.</p> <p>If the value of investments is found to have changed from the estimates used by the actuaries, this may impact the overall value of the pension liability. However, as the recognisable value of assets has been restricted to the level of the funded pension obligation we would not expect this to impact the financial statements. For instance, a 2% decrease in the value of investments would have no impact on the net pension liability.</p> <p>The Council's share of these Pension Fund property investments would be material to the Council's net liability, this would also present a material uncertainty on the valuation of the Council's pension assets and liabilities as at 31 March 2024.</p>

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

2. MATERIAL ITEMS OF INCOME AND EXPENSE

There are no material items of income and expense in 2022/23 or 2023/24.

3. EVENTS AFTER THE REPORTING PERIOD

The draft Statement of Accounts (SOA) for 2023/24 was approved for issue by the Section 151 Officer and Corporate Director for Strategic Finance on 15 July 2024. This is also the date up to which events after the reporting period have been considered.

4. EXPENDITURE AND FUNDING ANALYSIS

The objective of the Expenditure and Funding Analysis is to demonstrate to council tax payers how the funding available to the Authority (i.e. government grants, council tax and business rates) for the year has been used in providing services in comparison with those resources consumed or earned by the Authority in accordance with generally accepted accounting practices. The Expenditure and Funding Analysis also shows how this expenditure is allocated for decision making purposes between the Authority's service areas. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement in Section 2A. The Expenditure and Funding Analysis also fulfils the requirement to report by segments.

2023/24 – Expenditure and Funding Analysis	Net Expenditure Chargeable to the General Fund	Adjustments between Funding and Accounting Basis (Note 5)	Net Expenditure in the Comprehensive Income and Expenditure Statement
	£000	£000	£000
Customer Service and Delivery	12,823	1,086	13,909

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

5. NOTE TO THE EXPENDITURE AND FUNDING ANALYSIS

This note explains the main adjustments from the net expenditure chargeable to the general fund balances to arrive at the amounts in the Comprehensive Income and Expenditure Statement (CIES).

Adjustments between Funding and Accounting Basis				
2023/24	Adjustments for capital purposes (Note A) £000	Net change for the pensions adjustments (Note B) £000	Other Differences (Note C) £000	Total adjustments £000
Customer Service and Delivery	836	199	51	1,086
Strategic Finance	107	3	-	110
Place and Enterprise	3,810	298	-	4,108
Strategy and Governance	-	158	-	158
Net Cost of Services	4,753	658	51	5,462
Other income and expenditure from the Expenditure and Funding Analysis	(7,243)	158	4,185	(2,900)
Difference between the General Fund surplus or deficit, and the surplus or deficit on the provision of services in the CIES	(2,490)	816	4,236	2,562

Adjustments between Funding and Accounting Basis				
2022/23 Comparatives	Adjustments for capital purposes (Note A) £000	Net change for the pensions adjustments (Note B) £000	Other Differences (Note C) £000	Total adjustments £000
Customer Service and Delivery	1,039	767	61	1,867
Strategic Finance	83	13	-	96
Place and Enterprise	4,355	1,375	-	5,730
Strategy and Governance	-	870	-	870
Net Cost of Services	5,477	3,025	61	8,563
Other income and expenditure from the Expenditure and Funding Analysis	(2,541)	1,407	(6,165)	(7,299)
Difference between the General Fund surplus or deficit, and the surplus or deficit on the provision of services in the CIES	2,936	4,432	(6,104)	1,264

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Note A: Adjustments for Capital Purposes

Adjustments for capital purposes reflect:

For services this column adds in depreciation and impairment and adjusts for revenue expenditure funded from capital under statute.

Other income and expenditure from the Expenditure and Funding Analysis – this adjusts for statutory charges for capital financing and other capital contributions are deducted. It also adjusts for capital disposals with a transfer of the income on the disposal and the amounts written-off.

Note B: Net Change for the Pensions Adjustments

Net changes for the removal of pension contributions and the addition of IAS19 Employee Benefits pension related expenditure and income:

For services this represents the removal of the employer pension contributions made by the Authority as allowed by statute and the replacement with current service costs and past service costs.

For other income and expenditure from the Expenditure and Funding Analysis – the net interest on the defined benefit liability is charged to the CIES.

Note C: Other Differences

Other differences between amounts debited/credited to the Comprehensive Income and Expenditure Statement and amounts payable/receivable to be recognised under statute:

For services reflects the change in the annual leave accrual when compared with the previous year.

For other income and expenditure from the Expenditure and Funding Analysis represents the timing difference between what is chargeable under statutory regulations for council tax and business rates that was projected to be received at the start of the financial year, and the income recognised under generally accepted accounting practices.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

6. EXPENDITURE AND INCOME ANALYSED BY NATURE

The Expenditure and Income Analysed by Nature note shows the amounts that make up the surplus or deficit on the provision of services on the CIES, but here they are categorised by nature instead of by service segment.

Expenditure and Income Analysed by Nature	2022/23	2023/24
	£000	£000
Employee Benefits Expenses*	21,763	24,987
Other Service Expenses	29,899	29,483
Depreciation, Amortisation and Impairment**	7,198	5,423
Interest Payments	372	376
Pension Fund Administration Expenses	65	66
Net Interest on the net defined benefit liability***	1,342	92
Losses/(Gains) on disposal of non-current assets	(33)	31
Total Expenditure	60,606	60,458
Fees, Charges and Other Service Income	(17,756)	(19,898)
Interest and Investment Income	(1,169)	(1,971)
Income from Council Tax and Business Rates	(6,490)	(6,063)
Revenue Grants and Contributions	(25,963)	(25,227)
Capital Grants and Contributions****	(2,501)	(4,789)
Other Income	(105)	(26)
Total Income	(53,984)	(57,974)
Deficit on Provision of Services	6,622	2,484

* Employee Benefits Expenses

The increase in Employee Benefits Expenses in 2023/24 of £3.2 million reflects the impact of the local government pay award (£0.84 million). In addition the Council has incurred a full year of Waste and Cleansing salaries in 2023/24 compared to six months in 2022/23 following the return of the service in-house from October 2022.

** Depreciation, Amortisation and Impairment

The decrease in this notional cost relates to impairment on Investment Properties and Leisure Centres in 2022/23, which increased this cost in 2022/23.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

***** Net Interest on the Net Defined Benefit Liability**

The change during the year in the net defined benefit liability (asset) arises from the passage of time charged to the Comprehensive Income and Expenditure Statement. This is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability (asset) at the beginning of the year, taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.

******Capital Grants and Contributions**

This increase in capital grants in 2023/24 mainly relates to the Local Authority Housing Fund (LAHF).

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

7. ADJUSTMENTS BETWEEN ACCOUNTING BASIS AND FUNDING BASIS UNDER REGULATIONS

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Authority in the year, in accordance with proper accounting practice, to the resources that are specified by statutory provisions as being available to the Authority to meet future capital and revenue expenditure.

2023/24	Usable Reserves			Movement in Unusable Reserves £000
	General Fund Balance £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000	
Adjustments primarily involving the Capital Adjustment Account (CAA):				
<i>Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement (CIES):</i>				
Charges for depreciation and impairment of non-current assets	2,895			(2,895)
Revaluation losses/(gains) on Property, Plant and Equipment	31			(31)
Movements in the market value of Investment Properties	670			(670)
Amortisation of Intangible Assets	188			(188)
Capital grants and contributions applied	(4,789)			4,789
Revenue expenditure funded from capital under statute (REFCUS)	1,639			(1,639)
Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the CIES	127			(127)
<i>Insertion of items not debited or credited to the CIES:</i>				
Statutory provision for the financing of capital investment	(489)			489
Capital expenditure charged against the General Fund	(2,563)			2,563
Revenue contribution to Capital Outlay – RCCO	(76)			76
Adjustments primarily involving the Capital Grants Unapplied Account:				
Capital grants and contributions unapplied credited to the CIES				
Application of grants to capital financing transferred to the Capital Adjustment Account			(195)	195
Adjustments primarily involving the Capital Receipts Reserve:				
Transfer of cash sale proceeds credited as part of the gain/loss on disposal to the CIES	(97)	97		-

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

2023/24	Usable Reserves			Movement in Unusable Reserves £000
	General Fund Balance £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000	
Adjustments primarily involving the Capital Receipts Reserve:				
Transfer of unattached capital receipts	(26)	26		-
Use of the Capital Receipts Reserve to finance new capital expenditure		(617)		617
Adjustments primarily involving the Pensions Reserve:				
Reversal of items relating to retirement benefits debited or credited to the CIES (see Note 35)	3,532			(3,532)
Employer's pensions contributions and direct payments to pensioners payable in the year	(2,716)			2,716
Adjustments primarily involving the Council Tax Collection Fund Adjustment Account:				
Amount by which council tax income credited to the CIES is different from council tax income calculated for the year in accordance with statutory requirements	116			(116)
Adjustments primarily involving the Business Rates Collection Fund Adjustment Account:				
Amount by which business rates income credited to the CIES is different from business rates income calculated for the year in accordance with statutory requirements	4,069			(4,069)
Adjustments primarily involving the Accumulated Absences Account:				
Amount by which officer remuneration charged to the CIES on an accrual basis is different from remuneration chargeable in the year in accordance with statutory requirements	51			(51)
Total Adjustments between the Accounting Basis and Funding Basis under regulations in 2023/24	2,562	(494)	(195)	(1,873)

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

2022/23 Comparatives	Usable Reserves			Movement in Unusable Reserves £000
	General Fund Balance £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000	
Adjustments primarily involving the Capital Adjustment Account (CAA):				
<i>Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement (CIES):</i>				
Charges for depreciation and impairment of non-current assets	3,042			(3,042)
Revaluation losses/(gains) on Property, Plant and Equipment	156			(156)
Movements in the market value of Investment Properties	1,720			(1,720)
Amortisation of Intangible Assets	135			(135)
Capital grants and contributions applied	(2,336)			2,336
Revenue expenditure funded from capital under statute (REFCUS)	2,144			(2,144)
Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the CIES	10			(10)
<i>Insertion of items not debited or credited to the CIES:</i>				
Statutory provision for the financing of capital investment	(488)			488
Capital expenditure charged against the General Fund	(1,083)			1,083
Revenue contribution to Capital Outlay – RCCO	(50)			50
Adjustments primarily involving the Capital Grants Unapplied Account:				
Capital grants and contributions unapplied credited to the CIES	(165)		165	-
Application of grants to capital financing transferred to the Capital Adjustment Account			(260)	260
Adjustments primarily involving the Capital Receipts Reserve:				
Transfer of cash sale proceeds credited as part of the gain/loss on disposal to the CIES	(43)	43		-

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

2022/23 Comparatives	Usable Reserves			Movement in Unusable Reserves £000
	General Fund Balance £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000	
Adjustments primarily involving the Capital Receipts Reserve:				
Transfer of unattached capital receipts	(106)	106		-
Use of the Capital Receipts Reserve to finance new capital expenditure		(179)		179
Adjustments primarily involving the Pensions Reserve:				
Reversal of items relating to retirement benefits debited or credited to the CIES (see Note 35)	6,419			(6,419)
Employer's pensions contributions and direct payments to pensioners payable in the year	(1,987)			1,987
Adjustments primarily involving the Council Tax Collection Fund Adjustment Account:				
Amount by which council tax income credited to the CIES is different from council tax income calculated for the year in accordance with statutory requirements	(11)			11
Adjustments primarily involving the Business Rates Collection Fund Adjustment Account*:				
Amount by which business rates income credited to the CIES is different from business rates income calculated for the year in accordance with statutory requirements	(6,155)			6,155
Adjustments primarily involving the Accumulated Absences Account:				
Amount by which officer remuneration charged to the CIES on an accrual basis is different from remuneration chargeable in the year in accordance with statutory requirements	62			(62)
Total Adjustments between the Accounting Basis and Funding Basis under regulations in 2022/23	1,264	(30)	(95)	(1,139)

*The large adjustment in 2022/23 regarding the Business Rates Collection Fund Adjustment Account reflects the movement on the Business Rates Collection Fund balance at 31 March 2023 (£5.96 million surplus compared to £6.35 million deficit at 31 March 2022). During 2021/22 local authorities received further s31 grants to offset the business rate reliefs given to businesses during the pandemic. Under current Collection Fund accounting rules, the s31 grants received in 2021/22 are being discharged against the Collection Fund deficit in 2022/23 onwards.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

8. TRANSFERS TO/FROM EARMARKED RESERVES

This note details the amounts set aside from the General Fund balances in earmarked reserves to provide financing for future expenditure plans and the amounts posted back from earmarked reserves to meet General Fund expenditure in 2023/24. The purpose of some of the more significant earmarked reserves are shown below:

Vehicles and Plant Renewals - This reserve is used to purchase vehicles and heavy plant to maintain a modern and efficient Council vehicle fleet. The funding has been used to purchase end of life fleet replacements and the fleet required for the roll out of the remaining properties onto the Devon Aligned Service (DAS) in October 2023 (Council report 13th April 2023).

Ferry Repairs and Renewals – This reserve allows for the financing of major repairs required to the tugs and floats used in the Council’s ferry operation and the renewal of those assets.

Planning Policy and Major Developments – This reserve originated to help smooth out annual expenditure on the preparation of the Local Plan. It is also to fund one off planning costs and manage future fluctuations in income.

Sustainable Waste Management - This reserve enables the Council to develop sustainable waste initiatives and is also used to support any unforeseen future waste cost pressures relating to market changes.

New Homes Bonus - This reserve was established to show how New Homes Bonus funding has been used on an annual basis.

Business Rates Retention Scheme - The Business Rates Retention earmarked reserve covers any possible funding issues from the accounting arrangements and to smooth the volatility from business rates income over a period of years.

Revenue Grants Reserve – This reserve holds revenue grants with no repayment conditions that have not been used during the year.

S31 Compensation Grant (Business Rates) Reserve - This reserve was set up to hold business rates s31 grants received to offset the business rate reliefs awarded by Central Government. Under current Collection Fund accounting rules, the s31 grants received are not discharged against the Collection Fund deficit until the following year. This is a holding account.

Ukraine Humanitarian Crisis Reserve – This reserve was set up in 2022/23 to hold funding received to support the Ukraine Humanitarian Crisis.

*(Earmarked Reserves marked with an asterisk denote where funding within Earmarked Reserves has been allocated by the Council for funding for the Council Plan for 2024-28). In total £1.541m of Earmarked Reserves funding has been allocated for the Council Plan.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Balance Sheet amount at 31 March 2022	66,539	4,435	516	2,183	73,673

In accordance with the Temporary Relief offered by the update to the code on infrastructure assets, this note does not include disclosure of gross cost and accumulated depreciation for infrastructure assets because historical reporting practices and resultant information deficits mean that this would not represent a true and fair view of the asset position to the users of the financial statements.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Infrastructure Assets

	2022/23 £000	2023/24 £000
Balance at start of year	6,572	6,241
Additions	131	218
Depreciation charge for year	(462)	(470)
Balance at end of year	6,241	5,989

	2022/23 £000	2023/24 £000
Infrastructure Assets	6,241	5,989
Other Property Plant and Equipment Assets	82,417	90,734
Total Property Plant and Equipment Assets	88,658	96,723

Depreciation

The Council provides for depreciation on all assets other than freehold land, community assets and investment properties. The provision for depreciation is made by allocating the cost (or revalued amount) less the estimated residual value of the assets over the accounting periods expected to benefit from their use. The straight-line method of depreciation is used. Assets are depreciated in the year following acquisition and in the year of disposal.

Asset lives are reviewed regularly as part of the rolling programme of property revaluation and annual impairment review. Where the useful life of an asset is revised, the carrying amount of the asset is depreciated over the revised remaining life.

Capital Commitments

As at 31 March 2024 the Authority has entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment. The commitments relate to:

- St Ann's Chapel Housing Scheme - £0.792 million
- Westville Temporary Accommodation - £0.349 million
- Dartmouth Health and Wellbeing Hub - £0.033 million
- Batson, Salcombe Employment Units - £0.20 million

As a comparison, as at 31 March 2023 the Authority had entered into four contracts for the construction or enhancement of Property, Plant and Equipment totalling £2.5 million.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Revaluations

All material freehold land and buildings which comprise the Authority's property portfolio are revalued by the Council's valuer on a rolling basis.

Valuations of land and buildings were carried out in accordance with the methodologies and basis for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors.

Assets are valued in accordance with a five year rolling programme (with ad hoc valuations taking place, for example where assets have been enhanced). In addition, a formal impairment review of the entire holding of land and buildings is undertaken at the end of each financial year, to ensure the carrying value reflects the fair value at the Balance Sheet date. The basis of valuation is set out in the Statement of Accounting policies in Note 38.

	Land and buildings £000	Vehicles, plant, furniture and equipment £000	Total £000
Valued at historical cost	-	5,301	5,301
Valued at current value in:			
2023/2024	40,551		40,551
2022/2023	29,804		29,804
2021/2022	11,368		11,368
2020/2021	-		-
2019/2020	170		170
Total	81,893	5,301	87,194

Impairment Losses

Impairment losses and impairment reversals charged to the Surplus or Deficit on the Provision of Services and to Other Comprehensive Income and Expenditure, are summarised in the preceding movements table, reconciling the movement over the year in the Property, Plant and Equipment balances. No impairment losses other than those relating to revaluation losses were incurred.

Inventories – St Ann's Chapel

Inventories have increased from £717,000 as at 31 March 2023 to £1,040,000 as at 31 March 2024. The increase in Inventories in 2023/24 relates to the St Ann's Chapel Housing scheme which includes the building of 8 affordable homes, 3 open market units and 2 serviced plots. Total expenditure on the St Ann's Chapel Housing scheme for 2023/24 is £1.29 million. Of this spend, £0.94 million relates to the 8 affordable homes and 2 serviced plots and this expenditure is included within the Assets under Construction additions shown in the Property, Plant and Equipment movements table.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

The remaining £0.35 million relates to the open market units. These are in the process of production for sale and therefore have been classed as Inventories as at 31 March 2024 and are not included in the Property, Plant and Equipment or Capital Expenditure balances as at 31 March 2024.

13. INVESTMENT PROPERTIES

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement:

A. Income and Expenditure Account	2022/23 £000	2023/24 £000
Rental income from investment properties	(916)	(909)
Direct operating expenses arising from investment properties (this includes the change in valuation on investment properties)	1,725	679
Net (gain)/loss	809	(230)

The following table summarises the movement in the fair value of investment properties over the year:

B. Movement in fair value	2022/23 £000	2023/24 £000
Balance at start of the year	18,610	16,890
Net gains/(losses) from fair value adjustments	(1,720)	(670)
Balance at end of the year	16,890	16,220

There are no restrictions on the Authority's ability to realise the value inherent in its investment property or on the Authority's right to the remittance of income and the proceeds of disposal. The Code requires that Investment Properties are measured annually at fair value. The fair value valuation decreased by £670,000 at 31 March 2024 amounting to a total of £16.22 million. The valuation has been carried out using the investment method and comparison approach, taking into account prevailing real estate property yields. The reduction in value is caused by a softening of the yield associated to the retail element of one of the investment properties, particularly taking into account that the ERV (estimated rental value) is currently assessed at lease expiry to be lower than the current passing rent, and the shortening time period to the lease expiry. These investment properties are strategic long-term investments and are held for the longer term.

The Code confirms that movements in fair value are debited to the provision of services and are not proper charges to the General Fund. They are reversed out to the Capital Adjustment Account in the Movement in Reserves Statement. Therefore this change in valuation does not impact on the Council's 'bottom line' in the Income and Expenditure account, as it is reversed out through the Capital Adjustment Account.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Fair Value Measurement of Investment Property

Observable Inputs – Level 2

The commercial land and buildings are measured using the income approach, by means of the discounted cash flow method, where the expected cash flows from the properties are discounted using a market-derived discount rate to establish the present value of the net income stream. The approach has been developed using the Council's own data factoring in assumptions such as duration and timing of cash inflows and outflows, rent growth, occupancy levels, bad debt levels and maintenance costs. The Council's commercial land and buildings are therefore categorised as Level 2 based on assumptions on observable inputs in the fair value hierarchy as the measurement technique uses observable inputs to determine the fair value measurements.

Highest and Best Use of Investment Properties

In estimating the fair value of the Council's Investment Properties, it has been established that their current use is the highest and best use of the properties.

Valuation Techniques

There has been no change in the valuation techniques used during the year for Investment Properties.

14. FINANCIAL INSTRUMENTS

Categories of Financial Instruments

Financial instruments are recognised on the Balance Sheet when the Council becomes party to the contractual provisions of a financial instrument. They are classified based on the business model for holding the instruments and their expected cash flow characteristics.

Financial Liabilities

Financial liabilities are initially measured at fair value and subsequently measured at amortised cost. For the Council's borrowing this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus outstanding interest payable).

Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument.

Financial Assets

To meet the code requirements, financial assets are now classified into one of three categories:

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

- **Financial assets held at amortised cost** – These represent loans and loan-type arrangements where repayments of interest and principal take place on set dates and at specific amounts. The figure presented in the Balance Sheet represents the outstanding principal received plus accrued interest. Interest credited to the Comprehensive Income and Expenditure Statement (CIES) is the amount receivable as per the loan agreement.
- **Fair Value Through Other Comprehensive Income (FVOCI)** – These assets are measured and carried at fair value. All gains and losses due to changes in fair value (both realised and unrealised) are accounted for through a reserve account, with the balance debited or credited to the CIES when the asset is disposed of.
- **Fair Value Through Profit and Loss (FVTPL)** – These assets are measured and carried at fair value. All gains and losses due to changes in fair value (both realised and unrealised) are recognised in the CIES as they occur.

Allowances for impairment losses have been calculated for amortised cost assets, applying the expected credit loss method. Changes in loss allowances (including balances outstanding at the date of recognition of an asset) are debited/credited to the Financing and Investment Income and Expenditure line in the CIES. Changes in the value of assets carried at fair value are debited/credited to the Financing and Investment Income and Expenditure line in the CIES as they arise.

The value of debtors and creditors reported in the table overleaf are solely those amounts meeting the definition of a financial instrument. The balances of debtors and creditors reported in the Balance Sheet and Notes 15 and 18 also include balances which do not meet the definition of a financial instrument, such as tax-based debtors and creditors.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Summary of Financial Instruments

The following categories of financial instrument are carried in the Balance Sheet:

	Long-term		Current	
	31 March 2023 £000	31 March 2024 £000	31 March 2023 £000	31 March 2024 £000
Financial Assets at Amortised Cost				
Investments*	-	-	17,900	6,000
Cash and Cash Equivalents	-	-	14,709	15,244
Debtors	-	-	5,287	3,490
Fair Value through Other Comprehensive Income – Financial Assets				
Investments – CCLA Local Authorities' Property Fund	1,314	1,262	-	-
Investments – CCLA Better World Cautious Fund (previously Diversified Income Fund)	1,312	1,943	-	-
Total Financial Assets	2,626	3,205	37,896	24,734
Financial Liabilities at Amortised Cost				
Borrowing (average fixed rate of interest on the borrowing is 2.547%)	(13,825)	(13,364)	(459)	(461)
Creditors	(98)	(101)	(3,088)	(2,857)
Total Financial Liabilities	(13,923)	(13,465)	(3,547)	(3,318)

*The Investments of the Council have decreased by £11.3 million as at 31 March 2024. Less funds were available to be invested at the end of 2023/24 due to the money spent on the Capital Programme. In addition, the money owed by the Council decreased by £6.7 million. The reduction in money owed relates to the movement in the Business Rates Collection Fund in 2023/24 and is purely the result of a technical accounting requirement.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Designated to Fair Value Through Other Comprehensive Income

At 31 March 2024 the Council had investments of £1.5 million with the CCLA Property Fund and £2.0 million with the CCLA Better World Cautious Fund (previously Diversified Income Fund). These are the nominal values of the CCLA investments.

Following the adoption of accounting standard IFRS 9 Financial Instruments in 2018/19, investments in equity are to be classified as fair value through profit and loss unless there is an irrevocable election to designate the asset as fair value through other comprehensive income.

The Council elected to designate the CCLA investments as fair value through other comprehensive income. These investments are eligible for the election because they meet the definition of equity instruments in paragraph 11 of IAS32 and are neither held for trading (the Council holds these investments as a long term strategic investment) nor contingent consideration recognised by an acquirer in a business combination to which IFRS3 applies. They are not considered to be puttable instruments because the Council does not have a contractual right to put the instrument back to the issuer for cash.

This election means that there is no impact on the revenue budget. Any gains or losses on the valuation of the CCLA investments will therefore be transferred to a Financial Instruments Revaluation Reserve until they are realised.

Statutory Override on Pooled Investments

As a result of the change in accounting standards for 2018/19 under IFRS 9, the Ministry for Housing, Communities and Local Government (MHCLG) agreed a temporary override to allow English Local Authorities time to adjust their portfolio of all pooled investments by announcing a statutory override to delay implementation of IFRS 9 for five years commencing from April 2018. The Council will use the statutory override to account for any changes in the fair value on its pooled investments. For the Council's Money Market Fund investments the change in fair value was immaterial in 2023/24.

Investments in Equity Instruments Designated at Fair Value Through Other Comprehensive Income

The Council had the following investments in equity instruments at 31 March 2024:

Investment	Nominal Value	Fair Value 31 March 2023	Fair Value 31 March 2024	Change in Fair Value during 2023/24
	£000	£000	£000	£000
CCLA Property Fund	1,500	1,314	1,262	(52)
CCLA Better World Cautious Fund	2,000	1,312	1,943	631
Total	3,500	2,626	3,205	579

The CCLA Better World Cautious Fund has increased in value during the year and the fair value is near the nominal investment value at 31 March 2024.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Net Gains and Losses on Financial Instruments

The following gains and losses have been recognised in the Comprehensive Income and Expenditure Statement in relation to financial instruments:

	2022/23	2023/24
	£000	£000
Net gains/losses on: Financial Assets measured at fair value through other comprehensive income	(979)	579
Total Net Gains/(Losses)	(979)	579

Fair Value of Financial Instruments

The following financial asset is measured in the Balance Sheet at fair value on a recurring basis:

Recurring Fair Value Measurements	Input Level in Fair Value Hierarchy	Valuation Technique Used to Measure Fair Value	31 March 2023 Fair Value	31 March 2024 Fair Value
			£000	£000
Fair Value Through Other Comprehensive Income CCLA Property Fund and CCLA Better World Cautious Fund	Level 2	Inputs other than quoted market prices that are observable for the asset or liability	2,626	3,205
TOTAL			2,626	3,205

Except for the financial assets carried at fair value, all other financial liabilities and financial assets represented are carried forward on the Balance Sheet at amortised cost. Their fair values are as follows:

	31 March 2023		31 March 2024	
	Carrying amount	Fair Value	Carrying amount	Fair Value
	£000	£000	£000	£000
PWLB Debt – Maturity	(5,490)	(4,947)	(5,130)	(4,561)
PWLB Debt – Annuity	(8,794)	(6,264)	(8,695)	(5,743)
Long Term Creditors	(98)	(98)	(98)	(98)

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

15. DEBTORS

31.3.2023		31.3.2024
£000		£000
	Short Term	
2,330	Central Government bodies*	556
746	Other Local Authorities	671
	Other debtors	
572	Council Tax	605
440	Business Rates	632
4,290	Other entities and individuals	3,897
8,378	Total	6,361

*The 'Central Government bodies' debtor has reduced substantially in 2023/24 mainly due to the end of year position for the Housing Benefit subsidy claim. At 31 March 2024 £237,000 was due from Central Government following completion of the final claim, compared to £1.6 million at 31 March 2023.

16. DEBTORS FOR LOCAL TAXATION

The past due but not impaired amount for local taxation (council tax and business rates) can be analysed by age as follows:

31.3.2023		31.3.2024
£000		£000
491	Up to one year	457
304	One to three years	277
218	Over three years	221
1,013	Total Debtors for Local Taxation	955

17. CASH AND CASH EQUIVALENTS

31.3.2023		31.3.2024
£000		£000
509	Cash held by the Authority	744
14,200	Money Market Funds	14,500
14,709	Total Cash and Cash Equivalents	15,244

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

18. CREDITORS

31.3.2023 £000		31.3.2024 £000
	Short Term	
(1,345)	Central Government bodies	(886)
(1,104)	Other Local Authorities	(561)
	Other Creditors	
(2,216)	Council Tax*	(1,314)
(7,023)	Business Rates**	(1,212)
(4,974)	Other entities and individuals	(5,547)
(16,662)	Total	(9,520)
	Long Term	
(98)	Other entities and individuals	(101)
(98)	Total	(101)

*The reduction in the short term council tax creditors as at 31 March 2024 reflects the movement in the Council Tax Collection Fund balance. As at 31 March 2024, the Council owed the Preceptors £1.1 million compared to £2.1 million as at 31 March 2023. This reflects the lower closing balance on the Council Tax Collection Fund as at 31 March 2024 (a surplus of £1.9 million, compared to a surplus of £2.8 million as at 31 March 2023).

** Business rates creditors have reduced from £7.0 million at 31 March 2023 to £1.2 million at 31 March 2024. This mainly reflects the movement in the Business Rates Collection Fund in 2023/24 from a £5.96 million surplus to a £1.20 million deficit. Further information can be found in Section 4 - The Collection Fund.

19. PROVISIONS

Provisions payable within twelve months of the Balance Sheet date are classified as current liabilities; provisions payable more than twelve months from the Balance Sheet date are classified as long term liabilities. No long term provisions were created in 2023/24 or 2022/23. The breakdown of the 2023/24 provision is shown in the following table:

	Business Rates Appeals £000
Balance at 1 April 2023	901
Provisions made in year	298
Amounts used in year	(306)
Balance at 31 March 2024	893

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Short term – Business Rates Appeals:

Provision is made for likely refunds of business rates as a result of appeals against the rateable value of business properties. The provision is based on the total value of outstanding appeals at the end of the financial year as advised by the Valuation Office Agency. Using this information, an assessment is made about the likely success rate of appeals and their value. In 2023/24 there has been a £19,000 reduction in the provision for appeals within the Collection Fund. The Council's share of this is 40% (i.e. £8,000).

20. USABLE RESERVES

Movements in the Authority's usable reserves are detailed in the Movement in Reserves Statement in Section 2B. The Council has the following usable reserves:

General Fund Balance - This balance has been established from surpluses on the Council's total expenditure. It provides a financial cushion should anything unexpected happen which would require unplanned expenditure.

Earmarked Reserves - The Council has set aside monies for specific purposes e.g. vehicle and plant replacement and the funding of strategic issues. In addition, on an annual basis monies are set aside in the Business Rates Retention earmarked reserve to mitigate the impact of business rates income volatility in future years. The movements in the 2023/24 earmarked reserves balance is explained in detail in the Narrative Statement.

Capital Receipts Reserve - Proceeds from the sale of assets are held in this reserve to be made available for future capital expenditure.

Capital Grants Unapplied - This reserve represents grants and contributions received in advance of matching to new capital investment.

21. UNUSABLE RESERVES

31.3.2023 £000		31.3.2024 £000
35,022	Revaluation Reserve	37,451
52,251	Capital Adjustment Account	56,193
(2,191)	Pensions Reserve	(2,214)
342	Council Tax Collection Fund Adjustment Account	226
3,615	Business Rates Collection Fund Adjustment Account	(454)
(874)	Financial Instruments Revaluation Reserve	(295)
(217)	Accumulated Absences Account	(268)
87,948	Total Unusable Reserves	90,639

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Authority arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation or
- disposed of and the gains are realised.

The Reserve includes only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

31.3.2023 £000	31.3.2023 £000	Revaluation Reserve	31.3.2024 £000	31.3.2024 £000
	31,072	Balance at 1 April		35,022
6,299		Upward revaluation of assets	5,111	
(1,818)		Downward revaluation of assets and impairment losses not charged to the Surplus or Deficit on the Provision of Services	(1,919)	
	4,481	Surplus or (Deficit) on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services		3,192
(531)		Difference between fair value depreciation and historical cost depreciation	(686)	
=		Accumulated gains on assets sold or scrapped	(77)	
	(531)	Amount written off to the Capital Adjustment Account		(763)
	35,022	Balance at 31 March		37,451

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement, as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to an historical cost basis). The Account is credited with the amounts set aside by the Authority as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Authority.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

2022/23 £000	2022/23 £000	Capital Adjustment Account	2023/24 £000	2023/24 £000
	54,531	Balance at 1 April		52,251
		Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement (CIES):		
(3,042)		▪ Charges for depreciation of non-current assets	(2,895)	
(156)		▪ Revaluation gains/(losses) on Property, Plant and Equipment (PPE)	(31)	
(1,720)		▪ Revaluation gains/(losses) on Investment Properties	(670)	
(135)		▪ Amortisation of Intangible Assets	(188)	
(2,144)		▪ Revenue expenditure funded from capital under statute (REFCUS)	(1,639)	
(10)		▪ Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the CIES	(127)	
	(7,207)	Total		(5,550)
-		Amounts of Revaluation Reserve balance written off on disposal or sale of PPE	77	
<u>531</u>		Adjusting amounts written out of the Revaluation Reserve	<u>686</u>	
	531	Net written out amount of the cost of non-current assets consumed in the year		763
		Capital financing applied in the year:		
179		• Use of the Capital Receipts Reserve to finance new capital expenditure	617	
2,336		• Capital grants and contributions credited to the CIES that have been applied to capital financing	4,789	
260		• Application of grants to capital financing from the Capitals Grants Unapplied Account	195	
488		• Statutory provision for the financing of capital investment charged against the General Fund	489	
1,083		• Capital expenditure charged against the General Fund	2,563	
50		• Revenue Contribution to Capital Outlay (RCCO)	76	
	4,396	Total		8,729
	52,251	Balance at 31 March		56,193

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Authority accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement (CIES) as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Authority makes employer's contributions to pension funds, or eventually pays any pensions for which it is directly responsible. The balance on the Pensions Reserve shows the difference between the benefits earned by past and current employees and the resources the Authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

31.3.2023 £000	Pensions Reserve	31.3.2024 £000
(52,621)	Balance at 1 April	(2,191)
54,862	Actuarial gains or (losses) on pension assets and liabilities*	793
(6,419)	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the CIES	(3,532)
1,987	Employer's pensions contributions and direct payments to pensioners payable in the year	2,716
(2,191)	Balance at 31 March	(2,214)

*The significant actuarial gain on pension assets and liabilities in 2022/23 reflected the movement on the Pension Fund where the Actuary estimated a net deficit on the funded liabilities within the Pension Fund as at 31 March 2023 of £2.19 million (a pension liability), which compared to a deficit of £52.6 million as at 31 March 2022. This large reduction in the pension liability for South Hams was mainly due to a change in financial assumptions (£56.1 million). This related to an increase in the discount rate from 2.6% at 31 March 2022 to 4.8% at 31 March 2023 (4.9% at 31 March 2024).

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Council Tax Collection Fund Adjustment Account

The Council Tax Collection Fund Adjustment Account manages the differences arising from the recognition of council tax income in the Comprehensive Income and Expenditure Statement (CIES) as it falls due from council tax payers, compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

31.3.2023 £000	Council Tax Collection Fund Adjustment Account	31.3.2024 £000
331	Balance at 1 April	342
11	Amount by which council tax income credited to the CIES is different from council tax income calculated for the year in accordance with statutory requirements	(116)
342	Balance at 31 March	226

Business Rates Collection Fund Adjustment Account

A scheme for the retention of business rates came in to effect on 1 April 2013 and established new accounting arrangements. The Business Rates Collection Fund Adjustment Account manages the differences arising from the recognition of business rates income in the Comprehensive Income and Expenditure Statement (CIES) as it falls due from ratepayers, compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

31.3.2023 £000	Business Rates Collection Fund Adjustment Account	31.3.2024 £000
(2,540)	Balance at 1 April	3,615
6,155	Amount by which business rates income credited to the CIES is different from business rates income calculated for the year in accordance with statutory requirements*	(4,069)
3,615	Balance at 31 March	(454)

*The large movement in the Business Rates Collection Fund Adjustment Account between 2022/23 and 2023/24 reflects the fact that the balance on the Business Rates Collection Fund at 31 March 2024 has moved from a £5.96 million surplus to a £1.201 million deficit. See Section 4 on the Collection Fund for further information.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Financial Instruments Revaluation Reserve

The Financial Instruments Revaluation Reserve contains the gains made by the Authority arising from increases in the value of its investments that are measured at fair value through other comprehensive income. The balance is reduced when investments with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- disposed of and the gains are realised

31.3.2023 £000	Financial Instruments Revaluation Reserve	31.3.2024 £000
105	Balance at 1 April	(874)
-	Upward revaluation of assets	630
(979)	Downward revaluation of assets	(51)
(874)	Balance at 31 March	(295)

Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from this Account.

31.3.2023 £000	£000	Accumulated Absences Account	31.3.2024 £000	£000
	(155)	Balance at 1 April		(217)
155		Settlement or cancellation of accrual made at the end of the preceding year	217	
<u>(217)</u>		Amounts accrued at the end of the current year	<u>(268)</u>	
	(62)	Amount by which officer remuneration charged to the CIES on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements		(51)
	(217)	Balance at 31 March		(268)

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

22. CASH FLOW STATEMENT – ADJUSTMENTS TO NET SURPLUS OR DEFICIT ON THE PROVISION OF SERVICES FOR NON-CASH MOVEMENTS

2022/23 £000		2023/24 £000
(3,042)	Depreciation	(2,895)
(156)	Impairment and downward valuations	(31)
(1,720)	Movement in market value of investment properties*	(670)
(135)	Amortisation	(188)
1,886	Increase/(decrease) in Debtors**	(2,242)
14,401	(Increase)/decrease in Creditors***	483
638	Increase/(decrease) in Inventories	323
(4,432)	Movement in pension liability	(816)
(10)	Carrying amount of non-current assets held for sale, sold or derecognised	(127)
7,430	Total	(6,163)

*The fair value valuation of Investment Properties decreased by £0.67 million at 31 March 2024. For further information please see Note 13 Investment Properties.

**The 'Central Government bodies' debtor has reduced substantially in 2023/24 mainly due to the end of year position for the Housing Benefit subsidy claim. As at 31 March 2024 £237,000 was due from Central Government following completion of the final claim, compared to £1.6 million at 31 March 2023.

***The movement in creditors between 2022/23 and 2023/24 mainly reflects the significant reduction in the short term Central Government bodies creditor in 2022/23. This was due to the repayment to Central Government of unapplied funding in respect of various Business Grants.

23. CASH FLOW STATEMENT – ADJUSTMENTS TO NET SURPLUS OR DEFICIT ON THE PROVISION OF SERVICES THAT ARE INVESTING AND FINANCING ACTIVITIES

2022/23 £000		2023/24 £000
149	Proceeds from the sale of non-current assets	123
2,501	Other non-cash items charged to the net surplus or deficit on the provision of services*	4,789
2,650	Net cash flows from investing activities	4,912

*This increase in capital grants in 2023/24 mainly relates to the Local Authority Housing Fund (LAHF).

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

24. CASH FLOW STATEMENT – INVESTING ACTIVITIES

2022/23 £000		2023/24 £000
7,235	Purchase of Property, Plant and Equipment, Investment Properties and Intangible Assets	8,018
(12,600)	Increase/(decrease) in investments	(11,900)
(149)	Proceeds from the sale of Property, Plant and Equipment, Investment Properties and Intangible Assets	(123)
(1,795)	Other receipts from investing activities (capital grants and contributions)	(5,168)
(7,309)	Net cash flows from investing activities	(9,173)

25. CASH FLOW STATEMENT – FINANCING ACTIVITIES

2022/23 £000		2023/24 £000
96	Repayments of short and long-term borrowing	459
(1,217)	Other receipts/payments for financing activities*	6,946
(1,121)	Total	7,405

*The movement between 2022/23 and 2023/24 is mainly due to the significant decrease in short term business rates and council tax creditors. For further information please see Note 18 Creditors.

26. TRADING OPERATIONS – BUILDING CONTROL

The Building (Local Authority Charges) Regulations 1998 require the disclosure of information regarding the setting of charges for the administration of the Building Control function. Building Regulations Control Services operate as a separate trading unit.

As of 1 April 2017, South Hams District Council (SHDC), West Devon Borough Council (WDBC) and Teignbridge District Council (TDC) entered into an updated partnership agreement and a new hosting agreement with respect to the staff and functions delivered by Devon Building Control Partnership (DBCP) to the three Council areas. This agreement saw the transfer of all staff who had DBCP responsibilities from SHDC or WDBC to TDC. As a result of this change, operational arrangements such as the delivery and management of support service functions, including holding the DBCP financial reserve, passed to TDC. Consequently the balance of the Building Control earmarked reserve was paid over to TDC during 2017/18 (£436,000). SHDC and WDBC retain control over the operation of this reserve and the DBCP by virtue of the partnership

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

and hosting agreement, along with active participation in the controlling Devon Building Control Partnership Committee.

The Summary Accounts for the year will be detailed in the DBCP Accounts, which can be found on Teignbridge District Council's website under the Devon Building Control Partnership Committee 2023/2024.

27. MEMBERS' ALLOWANCES

The Authority paid the following amounts to Members of the Council during the year. Members' allowances are published on the Council's website under 'Your Council' in the 'Councillors and Committees' section.

2022/23 £000		2023/24 £000
253	Allowances	285
14	Expenses	16
267	Total	301

28. OFFICERS' REMUNERATION

SENIOR EMPLOYEES

Regulation 4 of the Accounts and Audit (Amendment No.2) (England) Regulations 2009 [SI 2009 No. 3322] introduced a legal requirement to increase transparency and accountability in Local Government for reporting remuneration of senior employees.

A senior employee is defined as an employee whose salary is more than £150,000 per year, or alternatively one whose salary is at least £50,000 per year (to be calculated pro rata for a part-time employee) and who is:

- the designated head of paid service, a statutory chief officer or a non-statutory chief officer of a relevant body, as defined under the Local Government and Housing Act 1989
- the head of staff for a relevant body which does not have a designated head of paid service; or
- any person having responsibility for the management of the relevant body, to the extent that the person has power to direct or control the major activities of the body, in particular activities involving the expenditure of money, whether solely or collectively with other persons.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

The remuneration paid to the Authority's senior employees is as follows:

Post	Year	Salary, Fees and Allowances £	Expenses £	Pension Contribution £	Total £
Chief Executive and Head of Paid Service	22/23	127,100	1,500	21,300	149,900
	23/24	136,400	800	24,300	161,500
Corporate Director of Strategy and Governance	22/23	81,400	100	13,700	95,200
	23/24	87,500	100	15,600	103,200

Note A: Definition of Senior Employees

A review of the employees that meet the criteria for the definition of a "Senior Employee" in line with Regulation 4 of the Accounts and Audit (Amendment No.2) (England) Regulations 2009 [SI 2009 No. 3322] has resulted in the decision to remove employees from the Senior Employees note from 22/23 onwards and in place provide a Remuneration Above £50,000 table.

Note B: Shared Services with West Devon Borough Council

South Hams District Council and West Devon Borough Council have been in a shared services arrangement since 2007. Following the implementation of the joint Transformation Programme (T18), all of the Councils' non-manual workforce are shared across both Councils.

The total cost of senior employees employed by West Devon Borough Council has been included in the equivalent note of West Devon Borough Council's Accounts in accordance with the accounting requirements and is therefore excluded from the table above.

In 2023/24 South Hams District Council reimbursed costs amounting to £215,900 (2022/23 £145,800) in respect of the Senior Leadership Team (SLT) who are employed by West Devon Borough Council. South Hams District Council received a reimbursement in 2023/24 from West Devon Borough Council of £145,400 (2022/23 £135,400) in respect of the above shared senior employees.

Note C: Salary Sacrifice Schemes

South Hams District Council offer various Employee Salary Sacrifice Schemes as part of the employee benefits package. Figures quoted in the remuneration table are before any salary sacrifice deductions are made.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

REMUNERATION ABOVE £50,000

The Council is required by statute to disclose the number of employees for the year to which the accounts relate whose remuneration fell in each bracket of a scale in multiples of £5,000, starting with £50,000 (excluding employer pension contributions).

The following numbers do not include the senior employees as disclosed above.

Remuneration Bandings	2022/23	2023/24
£50,000 - £54,999	1	8
£55,000 - £59,999	3	6
£60,000 - £64,999	-	3
£65,000 - £69,999	2	1
£70,000 - £74,999	-	3
TOTAL	6	21

29. PAYMENTS TO EXTERNAL AUDITORS

The Authority has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and to non-audit services provided by the Authority's external auditors:

	2022/23	2023/24
	£000	£000
Fees payable with regard to external audit services	93	166
Core Audit Fees	61	132
Audit of Grants and Returns	32	34
Total*	93	166

*Additional fees were agreed by PSAA (Public Sector Audit Appointments) in 2023/24 and charged by Grant Thornton. This was partly for additional audit work carried out nationally, on the areas of pensions and fixed assets.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

30. GRANT INCOME

The Authority credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement.

	2022/23 £000	2023/24 £000
Credited to Taxation and Non-Specific Grant Income		
Capital grants and contributions:		
Disabled Facilities Grants	(1,049)	(1,332)
Capital Section 106 deposits	(357)	(535)
Green Homes Grant	(907)	-
Homes England (Clay Park)	(125)	(394)
Local Authority Housing Fund (LAHF)	-	(1,763)
UK Shared Prosperity Fund (UKSPF)	-	(72)
Food Waste Grant	-	(470)
Sport England Grant	-	(95)
Other capital grants and contributions	(63)	(128)
Non ring - fenced Government grants and contributions:		
New Homes Bonus Grant	(1,008)	(456)
S31 Business Rate Relief Grants	(5,642)	(5,573)
Rural Services Delivery Grant	(428)	(478)
Services Grant	(133)	(78)
Lower Tier Services Grant	(88)	-
Levy Account Surplus Grant	(16)	(16)
Revenue Support Grant	-	(138)
Funding Guarantee Grant	-	(694)
COVID-19 New Burdens Admin Support Grant	(66)	-
Total	(9,882)	(12,222)
Credited to Services		
Rent Allowance subsidy	(13,443)	(13,652)
Housing Benefit administration subsidy	(182)	(177)
Rent rebate subsidy	(141)	(213)
Discretionary housing payments	(101)	(94)
Council Tax benefit administration subsidy	(84)	-
Business Rates cost of collection allowance	(214)	(221)
Homelessness Prevention Grant	(196)	(307)
Neighbourhood Planning Grant	(60)	(50)
Redmond Review Local Audit Fees Grant	(18)	-
Recycling credits	(511)	(502)
Revenue Section 106 deposits	(484)	(284)
Electoral Commission – General Elections and European Elections	(51)	(51)
Electoral Integrity Programme New Burdens Grant	-	(48)
Council Tax Rebate Final Assessment	(93)	-
Business Rates Reliefs New Burdens Grant	(57)	-
Council Tax Energy Rebate Scheme (Discretionary)	(174)	-
Ukraine Humanitarian Crisis	(1,167)	(457)

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

	2022/23 £000	2023/24 £000
Household Support Scheme	(460)	(492)
Public Sector Low Carbon Skills Fund	(71)	-
COVID-19 Contain Outbreak Management Fund	(54)	-
UK Shared Prosperity Fund (UKSPF)	-	(335)
Planning Skills Delivery Fund Grant	-	(185)
Council Tax Support Scheme	-	(131)
Other grants and contributions	(1,020)	(595)
Total	(18,581)	(17,794)

The Authority has received a number of grants, contributions and donations that have yet to be recognised as income as they have repayment conditions attached to them. Until these conditions are met these grants are held as receipts in advance. Should these conditions not be met the monies would need to be returned to the grantor. The balances at the year-end are as follows:

Capital Grants Receipts in Advance	31 March 2023 £000	31 March 2024 £000
Local Authority Housing Fund (LAHF)	(286)	(215)
Rural England Prosperity Fund	-	(297)
Homes Upgrade Grant	-	(140)
Other grants	(79)	(92)
Total	(365)	(744)

Revenue Grants Receipts in Advance	31 March 2023 £000	31 March 2024 £000
UK Shared Prosperity Fund Core RDEL	(89)	-
UK Shared Prosperity Fund Capacity	(20)	-
Police and Crime Commissioner Elections	-	(236)
Places of Safety	-	(20)
Other grants	(56)	-
Total	(165)	(256)

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Various other sites	(1,618)	(942)
Total	(6,643)	(6,495)

31. RELATED PARTIES

The Authority is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party’s ability to bargain freely with the Authority.

Central Government

Central Government has effective control over the general operations of the Authority – it is responsible for providing the statutory framework, within which the Authority operates and prescribes the terms of many of the transactions that the Authority has with other parties (e.g. council tax bills, housing benefits). Grants received from Government departments are detailed in Note 30.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Members

Members of the Council have direct control over the Council's financial and operating policies. The total of members' allowances paid in 2023/24 is shown in Note 27.

32. CAPITAL EXPENDITURE AND CAPITAL FINANCING

The total amount of capital expenditure incurred in the year is shown in the table below together with the resources that have been used to finance it, giving rise to the movement in the Council's Capital Financing Requirement. The Capital Financing Requirement has increased by £0.929 million in 2023/24. This mainly reflects the capital expenditure incurred in respect of Batson Harbour depot during the year of £0.331 million and St Ann's Chapel housing scheme (£0.545 million).

The borrowing activity is constrained by prudential indicators for net borrowing and the CFR, and by the authorised limit.

Summary of Capital Expenditure and Financing (incorporating the Capital Financing Requirement)	2022/23 £000	2023/24 £000
<i>Opening Capital Financing Requirement</i>	13,536	18,519
Capital Investment		
Property, Plant and Equipment	975	6,581
Intangible Assets	95	93
Revenue expenditure funded from capital under statute (REFCUS)	2,144	1,639
Assets under Construction	6,165	1,345
Bank investment		
Total expenditure for capital purposes	9,379	9,658
Sources of Finance		
Capital receipts	(179)	(617)
Capital grants and external contributions	(2,596)	(4,984)
Earmarked reserves	(1,083)	(2,563)
Revenue	(50)	(76)
Total funding	(3,908)	(8,240)
Minimum Revenue Provision	(488)	(489)
<i>Closing Capital Financing Requirement</i>	18,519	19,448
<i>Movement in Capital Financing Requirement</i>	4,983	929
Explained by:		
Increase in underlying need to borrow (supported by government financial assistance)	3,038	(489)
Increase/(decrease) in underlying need to borrow (unsupported by government financial assistance)	1,945	1,418
Increase/(decrease) in Capital Financing Requirement	4,983	929

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

33. LEASES

Operating Leases

Authority as Lessee

The Authority uses certain land and buildings under the terms of operating leases. The most significant is:

Detail of lease	Term	Expiry date	Segment in CIES
The fundus of the Salcombe and Kingsbridge Estuary for the provision of harbour activities	21 years	24.03.2028	Place and Enterprise

The future minimum lease payments due under these non-cancellable leases are:

	31 March 2023 £000	31 March 2024 £000
N.B. Rentals for the fundus have been estimated based on income generated from certain harbour activities.		
Not later than one year	164	146
Later than one year and not later than five years	595	443
Later than five years	-	-
Total	759	589

The expenditure charged to the Place and Enterprise line in the Comprehensive Income and Expenditure Statement during the year in relation to these leases was:

	2022/23 £000	2023/24 £000
Minimum lease payments	262	262
Total	262	262

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Authority as Lessor

The Authority leases various parcels of land and buildings to external organisations. The most significant are shown below:

Detail of lease	Term	Expiry date	Segment in CIES
The operation of a supermarket	99 years	20.12.2077	Investment Properties
The rental of land	40 years	19.03.2064	Place and Enterprise
The operation of a supermarket and residential accommodation	35 years	24.03.2031	Investment Properties
The operation of a Health Hub	30 years	26.07.2053	Place and Enterprise
The rental of an industrial unit	25 years	31.05.2029	Place and Enterprise
The rental of office accommodation	20 years	24.07.2032	Place and Enterprise
The rental of office accommodation	10 years	29.09.2026	Place and Enterprise

The future minimum lease payments receivable under these non-cancellable leases in future years are:

	31 March 2023 £000	31 March 2024 £000
N.B. Rental income from the temporary accommodation has been estimated (based on rentals paid).		
Not later than one year	1,004	1,306
Later than one year and not later than five years	3,948	5,111
Later than five years	30,550	36,342
Total	35,502	42,759

The minimum lease payments receivable do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

34. EXIT PACKAGES AND TERMINATION BENEFITS

The number of exit packages, with total cost per band and total cost of voluntary, compulsory and other redundancies are set out in the table below:

Exit package cost band (incl. special payments)	Number of compulsory redundancies		Total number of exit packages by cost band		Total cost of exit packages in each band (£)	
	22/23	23/24	22/23	23/24	22/23	23/24
£0 - £20,000	1	1	1	1	3,690	1,927
TOTAL	1	1	1	1	3,690	1,927

Shared Services with West Devon Borough Council

Of the £1,927 cost of exit packages in 2023/24 (£3,690 in 2022/23), West Devon Borough Council (WDBC) made nil contributions in 2023/24 (nil contributions in 2022/23). In addition, South Hams District Council made no contribution to West Devon Borough Council in respect of their exit package costs in 2023/24 and 2022/23.

35. DEFINED BENEFIT PENSION SCHEMES

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Authority makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Authority has a commitment to make the payments that need to be disclosed at the time that employees earn their future entitlement.

The Authority participates in the Local Government Pension Scheme (LGPS). The LGPS is a defined benefit statutory scheme administered in accordance with the Local Government Pension Scheme Regulations 2013 and currently provides benefits based on career average revalued earnings.

The administering Authority for the Fund is Devon County Council. The Pension Fund Committee oversees the management of the fund whilst the day to day fund administration is undertaken by a team within the administering Authority. Where appropriate some functions are delegated to the Fund's professional advisers.

Contributions are set every 3 years as a result of the actuarial valuation of the fund required by the regulations. The next actuarial valuation of the fund will be carried out as at 31 March 2025 and will set contributions for the period from 1 April 2026 to 31 March 2029. There are no minimum funding requirements in

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

the LGPS but the contributions are generally set to target a funding level of 100% using the actuarial valuation assumptions. Funding levels are monitored on an annual basis. The total contributions expected to be made to the LGPS by the Council in the year to 31 March 2025 is £2.821 million. The Actuary has estimated the duration of the employer's liabilities to be 15 years.

Further information can be found in Devon County Council Pension Fund's Annual Report, which is available upon request from The County Treasurer, Devon County Council, County Hall, Exeter, EX2 4QJ.

Transactions Relating to Post-employment Benefits

The cost of retirement benefits are recognised in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against council tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement.

The movement in the pension scheme assets and liabilities together with the treatment of the corresponding transactions in the CIES is summarised in the following tables.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Comprehensive Income and Expenditure Statement	2022/23 £000	2023/24 £000
Cost of Services		
<i>Service cost comprising</i>		
- Current Service Cost	5,012	3,374
<i>Financing and Investment Income and Expenditure</i>		
- Net Interest Expense	1,342	92
- Administration Expenses	65	66
Total Post-employment benefits charged to the Surplus or Deficit on the Provision of Services	6,419	3,532
Other post-employment benefits charged to the Comprehensive Income and Expenditure Statement		
<i>Re-measurement of the net defined benefit liability comprising;</i>		
- Change in financial assumptions	(56,067)	(1,697)
- Change in demographic assumptions	(9,718)	(1,564)
- Experience loss/(gain)	3,352	343
- Return on fund assets in excess of interest	4,252	(7,450)
- Other actuarial (gains)/losses	966	-
- Changes in effect of asset ceiling*	2,353	9,575
<i>Total re-measurement recognised</i>	<i>(54,862)</i>	<i>(793)</i>
Total post-employment benefits charged to the Comprehensive Income and Expenditure Statement	(48,443)	2,739
<i>Movement in Reserves Statement</i>		
- Reversal of net charges made to the surplus or deficit on the provision of services for post-employment benefits in accordance with the code	6,419	3,532
<i>Actual amount charged against the General Fund Balance for pensions in the year</i>		
- Employers contributions payable to scheme	1,987	2,716

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Pensions Assets and Liabilities Recognised in the Balance Sheet

The amount included in the balance sheet arising from the Authority's obligation in respect of its defined benefit plans is as follows:

Net Pension Liability	31 March 2023 £000	31 March 2024 £000
Present value of the defined benefit obligation	100,709	108,528
Fair value of Fund assets	(103,062)	(120,396)
Deficit/(surplus)	(2,353)	(11,868)
Present value of unfunded obligation	2,191	2,041
Impact of asset ceiling*	2,353	12,041
Net defined benefit liability/(asset)	2,191	2,214

Reconciliation of asset ceiling*	31 March 2023 £000	31 March 2024 £000
Opening impact of asset ceiling	-	2,353
Interest on asset ceiling	-	113
Actuarial (gains)/losses	2,353	9,575
Closing impact of asset ceiling	2,353	12,041

Reconciliation of opening and closing balances of the fair value of Fund assets	31 March 2023 £000	31 March 2024 £000
Opening fair value of Fund assets	108,238	103,062
Interest on assets	2,780	5,362
Return on assets less interest	(4,252)	7,450
Other actuarial (gains)/losses	(966)	-
Administration expenses	(65)	(66)
Contributions by employer including unfunded	1,987	2,716
Contributions by Scheme participants	691	903
Estimated benefits paid plus unfunded net of transfers in	(5,351)	(5,278)
Settlement prices received/(paid)	-	6,247
Closing fair value of Fund assets	103,062	120,396

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Reconciliation of opening and closing balances of the present value of the defined benefit obligation	31 March 2023	31 March 2024
	£000	£000
Opening defined benefit obligation	160,859	102,900
Current service cost	5,012	2,645
Interest cost	4,122	5,341
Change in financial assumptions	(56,067)	(1,697)
Change in demographic assumptions	(9,718)	(1,564)
Experience loss/(gain) on defined benefit obligation	3,352	343
Liabilities assumed/(extinguished) on settlements	-	6,948
Estimated benefits paid net of transfers in	(5,161)	(5,073)
Past service costs, including curtailments	-	28
Contributions by Scheme participants	691	903
Unfunded pension payments	(190)	(205)
Closing defined benefit obligation	102,900	110,569

Pension Asset Ceiling

*The impact of the asset ceiling has been determined by the actuary under IFRIC 14 on the basis of the limitation on the Council's ability to recover the full economic benefit of its assets through reductions in future employer's contributions, because of the minimum funding requirement imposed on it by the funding strategy for the Scheme. The Council is currently committed to paying contributions into the Pension Fund at a higher rate than that at which future service costs will be accrued. On these projections, the Council will be unable to reduce future contributions to recover the £9.827 million net pension asset that would otherwise apply. It is important for Members to note that the adjustment to the pension position is made to better reflect the practical operation of the funding strategy. It does not indicate that the Council has paid £9.827 million into the pension fund that it will never benefit from.

See further information on the Pensions Asset in the Narrative Statement.

Basis for Estimating Assets and Liabilities

Assets and liabilities are assessed by Barnett Waddingham, an independent firm of actuaries. As required under IAS19 they use the projected unit method of valuation to calculate the service cost.

To assess the value of the Employer's liabilities at 31 March 2024, they have rolled forward the value of the Employer's liabilities calculated for the funding valuation as at 31 March 2023, using financial assumptions that comply with IAS19. To calculate the asset share they have rolled forward the assets allocated to South Hams District Council as at 31 March 2023 allowing for investment returns (estimated where necessary), contributions paid into and estimated benefits paid from the Fund, by and in respect of the Employer and its employees.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

The demographic assumptions are projected using the CMI_2020 Model and are summarised in the table below:

Basis for estimating assets and liabilities	31 March 2023 CMI_2020	31 March 2024 CMI_2020
Mortality assumptions (in years):		
<u>Longevity at 65 for current pensioners</u>		
- Men	21.8	21.5
- Women	22.9	22.7
<u>Longevity at 65 for future pensioners (in 20 years)</u>		
- Men	23.1	22.8
- Women	24.4	24.1
Financial assumptions (in percentages):		
- Salary increases	3.9%	3.9%
- Pension increases (CPI)	2.9%	2.9%
- Discount rate	4.8%	4.9%

The table below looks at the sensitivity of the major assumptions:

Sensitivity analysis	£000s	£000s	£000s
Adjustment to discount rate	+0.1%	0.0%	(0.1%)
Present value of total obligation	109,002	110,569	112,173
Projected service cost	2,531	2,619	2,709
Adjustment to long term salary increase	+0.1%	0.0%	(0.1%)
Present value of total obligation	110,697	110,569	110,442
Projected service cost	2,621	2,619	2,617
Adjustment to pension increases and deferred revaluation	+0.1%	0.0%	(0.1%)
Present value of total obligation	112,075	110,569	109,097
Projected service cost	2,711	2,619	2,530
Adjustment to life expectancy assumptions	+ 1 Year	None	-1 Year
Present value of total obligation	115,040	110,569	106,291
Projected service cost	2,711	2,619	2,529

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

The estimated asset allocation for South Hams District Council as at 31 March 2024 is as follows:

Employer asset share	31 March 2023		31 March 2024	
	£000	%	£000	%
UK equities	8,130	8%	1,691	1%
Overseas equities	46,168	45%	64,374	54%
Property	9,034	9%	9,247	8%
Infrastructure	9,266	9%	12,196	10%
Target return portfolio	7,163	7%	2,843	2%
Cash	1,224	1%	2,710	2%
Other bonds	22,037	21%	27,359	23%
Alternative assets	40	0%	(24)	0%
Total	103,062	100%	120,396	100%

Of the total fund asset at 31 March 2024, the following table identifies the split of those assets with a quoted market price and those that do not:

Employer Asset Share – Bid Value		31 March 2024	
		% Quoted	% Unquoted
Fixed interest government securities	UK	-	-
	Overseas	-	-
Corporate bonds	UK	7.3%	-
	Overseas	-	-
Equities	UK	-	-
	Overseas	53.5%	-
Property	All	-	7.7%
Others	Absolute return portfolio	2.4%	-
	Private equity	-	1.4%
	Infrastructure	-	10.1%
	Derivatives	-	-
	Multi sector credit fund	12.0%	-
	Private debt	-	3.4%
	Cash/Temporary investments	-	2.2%
Net current assets	Debtors	-	-
	Creditors	-	-
Total		75.2%	24.8%

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

McCloud Judgement

A judgement in the Court of Appeal about cases involving judges' and firefighters' pensions (the McCloud judgement) has the potential to impact on the Council. The cases concerned possible age discrimination in the arrangements for protecting certain scheme members from the impact of introducing new pensions arrangements. As the Local Government Pension Scheme was restructured in 2014, with protections for those members who were active in the Scheme at 2012 and over the age of 55, the judgement is likely to extend to the Scheme.

Regulations in respect of the McCloud and Sargeant judgments came into force on 1 October 2023. An allowance for the McCloud remedy will have been made in the liabilities which is consistent with the method adopted at the last actuarial valuation.

36. CONTINGENT LIABILITIES

The transfer of the Council's housing stock in March 1999 resulted in a capital receipt of some £42 million. As the stock transfer had to take place over a very short timescale, wide warranties were given to South Hams Housing (now LiveWest, previously Liverty) on staffing, environmental and other issues, (for example in relation to the existence of contaminated land, subsidence, etc.). These warranties were granted for 35 years from 1999. The purpose of these warranties is to safeguard the housing company if any of the main assumptions on which the transfer price was calculated turn out to be different in reality. Any liabilities that do arise will be funded from the Council's general reserves. Unfortunately, owing to the uncertainties surrounding any potential claim, it is not practicable to make an estimate of the total value of liabilities (if any).

37. NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

Key Risks

Financial Instruments held by the Council are detailed in Note 14. The Council's activities expose it to a variety of financial risks:

- **Credit risk** – the possibility that other parties might fail to pay amounts due to the Council;
- **Liquidity risk** – the possibility that the Council might not have funds available to meet its commitments to make payments;
- **Market risk** - the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rate movements;
- **Re-financing risk** - the possibility that the Council might be required to renew a financial instrument on maturity at disadvantageous interest rates or terms.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Overall Procedures for Managing Risk

The Council's overall risk management procedures focus on the unpredictability of financial markets and implementing restrictions to minimise these risks. The procedures for risk management are set out through a legal framework in the Local Government Act 2003 and the associated regulations. These require the Council to comply with the CIPFA Prudential Code, the CIPFA Treasury Management in the Public Services Code of Practice and Investment Guidance issued through the Act. Overall these procedures require the Council to manage risk in the following ways:

- by formally adopting the requirements of the Code of Practice;
- by the adoption of a Treasury Policy Statement and treasury management clauses within its Financial Regulations/Standing Orders/Constitution;
- by approving annually in advance prudential and treasury indicators for the following three years limiting:
 - The Council's overall borrowing;
 - Its maximum and minimum exposures to fixed and variable rates;
 - Its maximum and minimum exposures regarding the maturity structure of its debt;
 - Its maximum annual exposures to investments maturing beyond a year;
- by approving an investment strategy for the forthcoming year setting out its criteria for both investing and selecting investment counterparties in compliance with the Government Guidance.

These are required to be reported and approved at or before the Council's annual council tax setting budget or before the start of the year to which they relate. These items are reported with the Annual Treasury Management Strategy which outlines the detailed approach to managing risk in relation to the Council's financial instrument exposure. Actual performance is also reported to Members during the year.

The Annual Treasury Management Strategy which incorporates the prudential indicators was approved by Council on 30 March 2023 and is available on the Council's website (Minute 73).

These policies are implemented by the Finance team. The Council maintains written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk and the investment of surplus cash through Treasury Management Practices (TMPs). These TMPs are a requirement of the Code.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Credit risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures from the Council's customers.

This risk is minimised through the Annual Investment Strategy, which requires that deposits are not made with financial institutions unless they meet identified minimum credit criteria, in accordance with Fitch and Moody's Credit Ratings Services. The Annual Investment Strategy also considers maximum amounts and time limits in respect of each financial institution. Deposits are not made with banks and financial institutions unless they meet the minimum requirements of the investment criteria outlined above.

The Council uses the creditworthiness service provided by Link Asset Services. This service uses a sophisticated modelling approach with credit ratings from all three rating agencies forming the core element. However, it does not rely solely on the current credit ratings of counterparties but also uses the following overlays:

- Credit watches and credit outlooks from credit rating agencies;
- Credit Default Swap (CDS) spreads to give early warning of likely changes in credit ratings; and
- Sovereign ratings to select counterparties from only the most creditworthy countries.

Institutions are split into colour bandings to determine the maximum level and duration of the investment.

The full Investment Strategy for 2023/24 was approved by Council on 30 March 2023 and is available on the Council's website (Minute 73).

The Council's Counterparty limits are as follows:

- £6.0 million for Money Market Funds
- £1.5 million on CCLA Property Investment Fund
- £2.0 million on CCLA Diversified Income Fund
- £6.0 million on term deposits with banks and building societies with the UK (£7.0 million with Lloyds Bank PLC, the Council's bank).

The Council takes a very prudent approach regarding the collection of debts from its customers and calculates an annual provision for bad debts based on the age of its debt. A detailed review of potential bad debts was undertaken at 31 March 2024 and is reflected in the current figure of £769,000. This compares to £543,000 in 2022/23. The bad debt provision is adequate to deal with the historical experience of default and current market conditions. An analysis of the Council's debtors is provided in Note 15 to the accounts.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Amounts Arising from Expected Credit Losses

The Council's short term investments have been assessed and the expected credit loss is not material therefore no allowances have been made.

	Balance at 31 March 2024	Historical Experience of Default	Estimated Maximum Exposure to Default and Uncollectability at 31 March 2024
	£000	%	£000
Deposits with Bank and Financial Institutions			
Blackrock Money Market Fund	6,000	0.000%	-
Deutsche Money Market Fund	2,500	0.000%	-
LGIM Money Market Fund	6,000	0.000%	-
NatWest Markets Plc (NRFB)	6,000	0.007%	-
Total	20,500		-

Liquidity risk

The Council manages its liquidity position through the risk management procedures above (the setting and approval of prudential indicators and the approval of the treasury and investment strategy reports), as well as through a comprehensive cash flow management system, as required by the CIPFA Code of Practice. An analysis of the Council's cash and cash equivalents is provided in Note 17 to the accounts. This seeks to ensure that cash is available when needed.

The Council has ready access to borrowing from the money markets to cover any day to day cash flow need, and the PWLB and money markets for access to longer term funds. The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. There is therefore no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

Market Risk

The Council is exposed to market risk in terms of its exposure that the value of an instrument will fluctuate because of changes in:

- Interest rate risk;
- Price risk; and
- Foreign exchange rate risk.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Interest rate risk

The Council is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in fixed interest rates would have the following effects:

- Borrowings at fixed rates – the fair value of the borrowing will fall (no impact on revenue balances);
- Investments at fixed rates – the fair value of the assets will fall (no impact on revenue balances).

Borrowings are not carried at fair value on the balance sheet, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in the Other Comprehensive Income and Expenditure Statement.

The Council has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together the Council's prudential indicators and its expected treasury operations, including an expectation of interest rate movements.

From this strategy a prudential indicator is set which provides maximum and minimum limits for fixed and variable interest rate exposure. The Finance team will monitor markets and forecast interest rates within the year to adjust exposures appropriately. For instance during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns, similarly the drawing of longer term fixed rates borrowing would be postponed.

Price risk

The Council has an investment of £1.5 million in the CCLA Local Authorities Property Fund and £2.0 million in the CCLA Diversified Income Fund. At the end of each financial year the value of the Local Authority's investments are adjusted to equal the number of units held, multiplied by the published bid price.

The above investments have been elected as Fair Value through Other Comprehensive Income, meaning that all movements in price will impact on gains and losses recognised in the Financial Instruments Revaluation Reserve, therefore there will be no impact on the General Fund until the investment is sold or impaired.

Foreign exchange risk

The Council does not have any financial assets or liabilities denominated in foreign currencies, and thus has no exposure to loss arising from movements in exchange rates.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Refinancing and Maturity Risk

The Council maintains a debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer-term risk to the Council relates to managing the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer term financial liabilities and longer term financial assets.

The approved treasury indicator limits for the maturity structure of debt and the limits placed on investments placed for greater than one year in duration are the key parameters used to address this risk. The Council's approved treasury and investment strategies address the main risks and the Finance team address the operational risks within the approved parameters. This includes:

- monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt; and
- monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day to day cash flow needs, and the spread of longer term investments provide stability of maturities and returns in relation to the longer term cash flow needs.

The maturity analysis of financial liabilities is as follows, with the maximum and minimum limits for fixed interest rates maturing in each period:

	Approved minimum limits	Approved maximum limits	31 March 2023		31 March 2024	
			£million	%	£million	%
	%	%				
Less than 1 year	0%	10%	0.099	0.7%	0.461	3.3%
Between 1 and 2 years	0%	10%	0.461	3.2%	0.464	3.3%
Between 2 and 5 years	0%	50%	1.400	9.8%	1.408	10.2%
Between 5 and 10 years	0%	50%	2.390	16.7%	2.405	17.4%
Between 10 and 20 years	0%	50%	3.678	25.8%	2.995	21.7%
More than 20 years	0%	100%	6.256	43.8%	6.092	44.1%
Total			14.284	100.0%	13.825	100.0%

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

38. ACCOUNTING POLICIES

a) General Principles

The **Statement of Accounts** summarises the Authority's transactions for the 2023/24 financial year and its position at the year end of 31 March 2024. The Authority is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2015. These regulations require the accounts to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2023/24, supported by International Financial Reporting Standards (IFRS) (and statutory guidance issued under section 12 of the Local Government Act 2003).

The accounting convention adopted in the **Statement of Accounts** is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

The accounting policies are applicable to all of the Council's transactions including those of the Collection Fund (council tax and business rates).

b) Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Authority transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority.
- Revenue from the provision of services is recognised when the Authority can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption; they are carried as inventories on the **Statement of Financial Position** (also known as the Balance Sheet).
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the **Statement of Financial Position** (Balance Sheet). Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

The Council operates a de minimis policy for accruals. For revenue and capital expenditure the de minimis has remained at £5,000 in 2023/24.

c) Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that are readily convertible to known amounts of cash with insignificant risk of change in value. Our policy is shown in the following table:

Type of Investment	Settlement Terms	Gain/Loss on Sale	Cash Equivalent
Money Market Fund	T + 0	x	✓
Call Account	T + 0	x	✓
Notice Deposit	Maturity	x	x
Term Deposit	T + 7 days	x	✓
Other Term Deposits	Maturity	x	x

Key: T = trade date

The Council's view is that investments made with an investment period of greater than 7 days would not be classified as cash equivalents because they are not sufficiently liquid to meet short term cash commitments.

In the **Cash Flow Statement**, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

d) Material Items of Income and Expense

When items of income and expense are material (in excess of £500,000), their nature and amount is disclosed separately, either on the face of the **Comprehensive Income and Expenditure Statement** (CIES) or in the notes to the accounts, depending on how significant the items are to an understanding of the Council's financial performance.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

e) Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Authority's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

f) Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding assets during the year:

- depreciation attributable to the assets used by the relevant service
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the *Revaluation Reserve* against which the losses can be written off
- amortisation of intangible assets attributable to the service.

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisations. These charges are therefore replaced by the contribution in the *General Fund Balance*, by way of an adjusting transaction with the *Capital Adjustment Account* in the *Movement in Reserves Statement*, for the difference between the two.

g) Employee Benefits

Benefits Payable during Employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Council.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to *Surplus or Deficit on the Provision of Services*, but then reversed out through the *Movement in Reserves Statement* so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date, or an officer's decision to accept voluntary redundancy in exchange for those benefits. These benefits are charged on an accruals basis to the appropriate service or, where applicable, to the *Non Distributed Costs* line in the **Comprehensive Income and Expenditure Statement**, to end at the earlier of when the Council can no longer withdraw the offer of those benefits or when the Council recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the *General Fund Balance* to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the *Movement in Reserves Statement*, appropriations are required to and from the *Pensions Reserve* to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post-Employment Benefits

Employees of the Council are members of the Local Government Pensions Scheme, administered by Devon County Council. This scheme provides defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Council.

The Local Government Scheme is accounted for as a defined benefits scheme in the following way:

- The liabilities of the Devon County Council Pension Fund attributable to the Council are included in the **Statement of Financial Position** (Balance Sheet) on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates etc and estimates of projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

- The assets of the pension fund attributable to the Council are included in the **Statement of Financial Position** (Balance Sheet) at their fair value.

For further information please refer to Note 35.

The change in the net pension liability is analysed into the following components:

- **Service cost comprising:**
 - **current service cost** – the increase in liabilities as a result of years of service earned this year – allocated in the **Comprehensive Income and Expenditure Statement** to the services for which the employees worked
 - **past service cost** – the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years – debited to the *Surplus or Deficit on the Provision of Services* in the **Comprehensive Income and Expenditure Statement** as part of Non Distributed Costs
 - **net interest on the net defined benefit liability (asset)**, i.e. net interest expense for the Council – the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the *Financing and Investment Income and Expenditure* line of the **Comprehensive Income and Expenditure Statement** – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.
 - **effect of the Asset Ceiling** – this results in an increase in the pensions liabilities recognised by the Authority to reflect the current commitment to pay employer’s contributions to recover a deficit in the Pension Fund that has been assessed as greater than the net pensions liability established under Accounting Code requirements.
- **Re-measurements comprising:**
 - **the return on plan assets** – excluding amounts included in net interest on the net defined benefit liability (asset) – charged to the *Pensions Reserve* as Other Comprehensive Income and Expenditure
 - **actuarial gains and losses** – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the *Pensions Reserve* as Other Comprehensive Income and Expenditure

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

- **contributions paid to the Devon County Council pension fund** – cash paid as employer’s contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the *General Fund balance* to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the *Movement in Reserves Statement*, this means that there are appropriations to and from the *Pensions Reserve* to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the *Pensions Reserve* thereby measures the beneficial impact to the *General Fund* of being required to account for retirement benefits on the basis of cash flows rather than as benefits earned by employees.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

h) Events after the Reporting Period

Events after the Reporting Period are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue.

Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period – the **Statement of Accounts** is adjusted to reflect such events
- those that are indicative of conditions that arose after the reporting period – the **Statement of Accounts** is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the **Statement of Accounts**.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

i) Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the **Statement of Financial Position** (Balance Sheet) when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the *Financing and Investment Income and Expenditure* line in the **Comprehensive Income and Expenditure Statement** (CIES) for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For the borrowings held by the Council, this means that the amount presented in the **Statement of Financial Position** (Balance Sheet) is the outstanding principal repayable (plus accrued interest); and interest charged to the **CIES** is the amount payable for the year according to the loan agreement.

Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cash flow characteristics.

The three main classes of financial assets are measured at:

- Amortised cost
- Fair value through profit or loss (FVPL), and
- Fair value through other comprehensive income (FVOCI)

The Council's business model is to hold investments to collect contractual cash flows i.e. payments of interest and principal. Most of the Council's financial assets are therefore classified at amortised cost, except for those whose contractual payments are not solely payment of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument).

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the **Statement of Financial Position** (Balance Sheet) when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the *Financing and Investment Income and Expenditure* line in the **Comprehensive Income and Expenditure Statement** (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the Council, this means that the amount presented in the **Statement of Financial Position** (Balance Sheet) is the outstanding principal receivable (plus accrued interest) and interest credited to the **CIES** is the amount receivable for the year in the loan agreement.

Any gains and losses that arise on the derecognition of an asset are credited or debited to the *Financing and Investment Income and Expenditure* line in the **CIES**.

Financial Assets measured at Fair Value through other Comprehensive Income (FVOCI)

The Council has equity instruments designated at fair value through other Comprehensive Income (FVOCI).

The Council has made an irrevocable election to designate its equity instruments as FVOCI on the basis that it is held for non-contractual benefits, it is not held for trading but for strategic purposes.

The asset is initially measured and carried at fair value.

Dividend income is credited to *Financing and Investment Income and Expenditure* in the **Comprehensive Income and Expenditure Statement** when it becomes receivable by the Council.

Changes in fair value are posted to *Other Comprehensive Income and Expenditure* and are balanced by an entry in the *Financial Instruments Revaluation Reserve*.

When the asset is de-recognised, the cumulative gain or loss previously recognised in *Other Comprehensive Income and Expenditure* is transferred from the *Financial Instruments Revaluation Reserve* and recognised in the *Surplus or Deficit on the Provision of Services*.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Expected Credit Loss Model

The Council recognises expected credit losses on all of its financial assets held at amortised cost (or where relevant FVOCI), either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Council.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

Fair Value

The Council measures some of its assets and liabilities at their fair value at the end of the reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date.

The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place in the principal market for the asset or liability. The Council measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the Council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Council uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of the Council's fair value measurement of its assets and liabilities are categorised within the fair value hierarchy as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the Council can access at the measurement date.
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 – unobservable inputs for the asset or liability.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

j) Government Grants and Contributions

General

Whether paid on account, by instalments or in arrears, Government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments and
- the grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the **Comprehensive Income and Expenditure Statement** until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the **Statement of Financial Position** (Balance Sheet) as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or *Taxation and Non-Specific Grant Income* (non ring-fenced revenue grants and all capital grants) in the **Comprehensive Income and Expenditure Statement**.

Where capital grants are credited to the **Comprehensive Income and Expenditure Statement**, they are reversed out of the *General Fund Balance* in the *Movement in Reserves Statement*. Where the grant has yet to be used to finance capital expenditure, it is posted to the *Capital Grants Unapplied Reserve*. Where it has been applied, it is posted to the *Capital Adjustment Account*. Amounts in the *Capital Grants Unapplied Reserve* are transferred to the *Capital Adjustment Account* once they have been applied to fund capital expenditure.

k) Heritage Assets

Heritage assets are assets that are held by the Council principally for their contribution to knowledge or culture. The Council has reviewed its insurance and assets registers and has not identified any material assets that require disclosure.

l) Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council. As with Property,

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Plant and Equipment a de minimis level of £10,000 has been set for capitalisation.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Council can be determined by reference to an active market. In practice, no intangible asset held by the Council meets this criterion and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over 3 years to the relevant service line(s) in the **Comprehensive Income and Expenditure Statement**.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation charges are not permitted to have an impact on the *General Fund Balance*. Therefore, these charges are reversed out of the *General Fund Balance* in the *Movement in Reserves Statement* and posted to the *Capital Adjustment Account*.

m) Inventories

Inventories are included in the **Statement of Financial Position** (Balance Sheet) at the lower of cost and net realisable value.

n) Investment Properties

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale. Investment properties are measured initially at cost and subsequently at fair value, based on the amount that would be received to sell an asset in an orderly transaction between market participants at the measurement date. As a non-financial asset, investment properties are measured at highest and best use.

Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the *Financing and Investment Income and Expenditure* line in the **Comprehensive Income and Expenditure Statement**. The same treatment is applied to gains and losses on disposal. Rentals received in relation to investment properties are credited to the *Financing and Investment Income* line and result in a gain for the *General Fund Balance*. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the *General Fund Balance*. The gains and losses are therefore reversed out of the *General Fund Balance* in the *Movement in Reserves Statement* and posted to the *Capital Adjustment Account* and (for any sale proceeds greater than £10,000) the *Capital Receipts Reserve*.

o) Jointly Controlled Operations

Jointly controlled operations are activities undertaken by the Council in conjunction with other partners that involve the use of the assets and resources of the partners rather than the establishment of a separate entity. The Council

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

recognises on its **Statement of Financial Position** (Balance Sheet) the assets that it controls and the liabilities that it incurs and debits and credits the **Comprehensive Income and Expenditure Statement** with the expenditure it incurs and the share of income it earns from the activity of the operation.

p) Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification. Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets (i.e. embedded leases).

The Authority as Lessee

Finance Leases

The Council does not hold any finance leases as a lessee.

Operating Leases

Rentals paid under operating leases are charged to the **Comprehensive Income and Expenditure Statement** as an expense of the services benefitting from use of the leased property, plant or equipment. Where material, charges are made on a straight line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a rent-free period at the commencement of the lease).

The Authority as Lessor

Finance Leases

The Council does not hold any finance leases as a lessor.

Operating Leases

Where the Authority grants an operating lease over a property or an item of plant or equipment, the asset is retained in the **Statement of Financial Position** (Balance Sheet). Rental income is credited to the relevant line within the 'Cost of Services' or 'Financing and Investment Income' in the **Comprehensive Income and Expenditure Statement**. Where material, the rental income is credited on a straight line basis over the life of the lease, even if this does not match the pattern of payments.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

q) Overheads and Support Services

Costs of overheads and support services are only recharged to services requiring full cost recovery including Salcombe Harbour. Apart from these exceptions support services are shown in the Customer Service and Delivery service group within the **Comprehensive Income and Expenditure Statement**, which is in line with the Council's internal reporting method.

r) Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management

The Council does not capitalise borrowing costs incurred while assets are under construction. The cost of assets acquired other than by purchase is deemed to be fair value unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the authority.

Assets are then carried in the **Statement of Financial Position** (Balance Sheet) using the following measurement bases:

- infrastructure, community assets and assets under construction – depreciated historical cost
- all other assets – current value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV).

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value.

For non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value.

Assets included in the **Statement of Financial Position** (Balance Sheet) at current value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their current value at the year-end, but at a minimum every five years. Increases in valuations are matched by credits to the *Revaluation Reserve* to recognise unrealised gains. Exceptionally, gains might be credited to the **Comprehensive Income and Expenditure Statement** where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for as follows:

- where there is a balance of revaluation gains for the asset in the *Revaluation Reserve*, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the *Revaluation Reserve* or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the **Comprehensive Income and Expenditure Statement**.

The *Revaluation Reserve* contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the *Capital Adjustment Account*.

De minimis policy for capital controls and accounting purposes

CIPFA have not set specified de minimis levels and it is up to authorities to decide for themselves having regard to their particular circumstances.

In order to reduce the administrative burden a general de minimis limit of £10,000 has been set for the recognition of capital expenditure except for:

- Vehicles, Vessels and Plant for which the limit is £7,000
- Loans which have no limit

Component Accounting

The International Financial Reporting Standards (IFRS) code requires separate accounting for depreciation of significant components of assets that are:

- acquired on or after 1 April 2010
- enhanced on or after 1 April 2010
- revalued on or after 1 April 2010

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Where there is more than one significant part of the same asset which has the same useful life and depreciation method, such parts may be grouped in determining the depreciation charge.

Significant components which have different useful lives and/or depreciation methods, will be accounted for separately.

Where a component is replaced or restored, the carrying amount of the old component shall be derecognised and the new component reflected in the assets carrying amount, subject to the recognition principles of capitalising expenditure. Derecognition of a component from the **Statement of Financial Position** (Balance Sheet) takes place when no future economic benefits are expected from its use. Such recognition and derecognition takes place regardless of whether the replaced part has been depreciated separately.

Assets eligible to be considered for componentisation are those classified within the following categories:

1. Operational Buildings
2. Assets Held for Sale

The following will be considered outside the scope for componentisation:

1. Non-Depreciable Land
2. Assets Under Construction
3. Investment Properties
4. Infrastructure
5. Plant and Equipment
6. Community Assets
7. Intangible Assets

The criteria for components to be separately valued are that:

De minimis threshold - *The overall gross asset value must be in excess of £400k to be considered for componentisation and*

Materiality - *The component must have a minimum value of £200k or be at least 20% of the overall value of the asset (whichever is the higher) and*

Asset lives - *The estimated life of the component is less than half of that of the main asset.*

All three rules above must be met to consider componentisation. These rules will apply to revaluations and when replacing components within an asset.

Where enhancement is integral to the whole asset then unless there is significant evidence to the contrary, the asset life of the enhancement will have the same remaining life as the existing asset and will not be separately identified as a component.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Where assets are material and will therefore be reviewed for significant components, it is recommended that the **minimum** level of apportionment for the non-land element of assets is:

- Plant and equipment and engineering services
- Structure

The Valuer will assign to each standard property type a group of significant components common to all property assets within that property type.

Where a component is replaced the existing component shall be derecognised and the new component cost added to the carrying amount. The amount derecognised will be estimated based on the cost of the replacement part. This principle will apply to componentised and non-componentised assets.

Assets and asset components will be revalued in accordance with the annual valuation schedule agreed with the Valuer. The Valuer will be responsible for providing valuations apportioned in accordance with the assets property type.

Impairment

Assets are assessed at each year end as to whether there is any indication that an asset may be impaired. This formal impairment review is undertaken by the Council's Valuer. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for as follows:

- where there is a balance of revaluation gains for the asset in the *Revaluation Reserve*, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the *Revaluation Reserve* or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the **Comprehensive Income and Expenditure Statement**.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the **Comprehensive Income and Expenditure Statement**, up to the amount of the original loss, adjusted for depreciation, that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on a straight-line allocation over the useful life of the asset. Useful lives are determined on a case by case basis. Typical and maximum useful lives are:

Asset	Typical Useful Life	Maximum Useful Life
Buildings	Up to sixty years	Up to eighty years
Infrastructure	Up to twenty years	Up to fifty years
Refuse vehicles	Up to seven years	Up to ten years
Light vans	Up to seven years	Up to seven years
Marine vessels	Up to fifteen years	Up to fifteen years
IT equipment	Up to three years	Up to three years

For some assets, a residual value is held on the Asset Register. The residual value is the estimated amount which would currently be realised from the disposal of the asset after deducting selling costs. Residual values are recorded as £15,000 for Ferry Tugs and £6,000 for Ferry Floats, both of which are used in the operation of the Dartmouth Ferry. Refuse vehicles purchased before 2015/16 also have a residual value of £2,000.

Where an item of Property, Plant and Equipment has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost, being transferred each year from the *Revaluation Reserve* to the *Capital Adjustment Account*.

Disposals and Non-current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the *Other Operating Expenditure* line in the **Comprehensive Income and Expenditure Statement**. Gains in fair value are recognised only up to the amount of any losses previously recognised in the *Surplus or Deficit on Provision of Services*. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as Assets Held for Sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Assets Held for Sale and their recoverable amount at the date of the decision not to sell.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the **Statement of Financial Position** (Balance Sheet), whether Property, Plant and Equipment or Assets Held for Sale is written off to the *Other Operating Expenditure* line in the **Comprehensive Income and Expenditure Statement** as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the **Comprehensive Income and Expenditure Statement** also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the *Revaluation Reserve* are transferred to the *Capital Adjustment Account*.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts.

The written-off value of disposals is not a charge against council tax, as the cost of assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the *Capital Adjustment Account* from the *General Fund Balance* in the *Movement in Reserves Statement*.

s) Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Council a present obligation that probably requires settlement by a transfer of economic benefits or service potential and a reliable estimate can be made of the amount of the obligation.

If it is not clear whether an event has taken place on or before the Balance Sheet date, it is deemed to give rise to a present obligation if, taking account of all available evidence, it is more likely than not that a present obligation exists at the Balance Sheet date. The present obligation can be legal or constructive.

Provisions are charged as an expense to the appropriate service line in the **Comprehensive Income and Expenditure Statement** in the year that the Council becomes aware of the obligation and are measured at the best estimate at the **Statement of Financial Position** (Balance Sheet) date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the **Statement of Financial Position** (Balance Sheet). Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received by the Council.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the **Statement of Financial Position** (Balance Sheet) but disclosed in a note to the accounts. The Council operates a disclosure de minimis policy for contingent liabilities of £50,000.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

Contingent assets are not recognised in the **Statement of Financial Position** (Balance Sheet) but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential. The Council operates a disclosure de minimis policy for contingent assets of £50,000.

t) Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the *General Fund Balance* in the *Movement in Reserves Statement*. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the *Surplus or Deficit on the Provision of Services* in the **Comprehensive Income and Expenditure Statement**. The reserve is then appropriated back into the *General Fund Balance* in the *Movement in Reserves Statement* so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Council – these reserves are explained in the relevant policies.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

u) Revenue Recognition

With the adoption of accounting standard IFRS 15, revenue is defined as income arising as a result of the Council's normal operating activities and where income arises from contracts with service recipients it is recognised when or as the Council has satisfied a performance obligation by transferring a promised good or service to the service recipient. Material revenue sources will be disclosed on the face of the **Consolidated Income and Expenditure Statement** and as part of Note 2, Material Items of Income and Expenditure.

Revenue is measured as the amount of the transaction price which is allocated to that performance obligation. Where the Council is acting as an agent of another organisation the amounts collected for that organisation are excluded from revenue.

The analysis carried out to date indicates that there will be no material impact on the revenue recognised in relation to the significant contracts entered into by the Council. A review will take place each year to identify whether any disclosure is necessary.

Further details of specific revenue recognition are provided in policies b) Accruals of Income and Expenditure and z) Accounting for Local Taxes.

v) Revenue Expenditure Funded from Capital under Statute (REFCUS)

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the **Comprehensive Income and Expenditure Statement** in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the *Movement in Reserves Statement* from the *General Fund Balance* to the *Capital Adjustment Account* then reverses out the amounts charged so that there is no impact on the level of council tax.

w) Section 106 Deposits

Where repayment conditions exist, developer contributions are treated as revenue receipts (Long Term Liabilities in the Statement of Financial Position, also known as the Balance Sheet) unless a clear capital use is identified in the terms of the agreement. In the latter case they are defined as Capital Receipts in Advance. Where no conditions are attached to the agreement, they are either treated as capital grants unapplied or credited directly to services if revenue in nature.

x) Shared Services

South Hams District Council and West Devon Borough Council have been in a shared services arrangement since 2007. Following the implementation of the joint Transformation Programme (T18), all of the Councils' non-manual workforce are shared across both Councils.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

Officers have produced a methodology for recharging the salary costs of shared officers based on the most appropriate cost driver and ratio to best reflect the officers split of workload between the two Councils. Examples of the cost drivers used are caseloads, call volumes, property numbers, number of claims or cases processed etc, and other methods such as time recording. The work carried out includes establishing from the Heads of Service/Group Managers the relevant recharge requirements for all of the non-manual workforce. On an annual basis, the Audit and Governance Committee approve the methodology for recharging the salary cost of shared officers.

y) VAT

VAT payable is included as an expense only to the extent that it is not recoverable from His Majesty's Revenue and Customs. VAT receivable is excluded from income.

z) Accounting for Local Taxes

Billing authorities act as agents, collecting council tax and business rates on behalf of the major preceptors (including government for business rates) and, as principals, collecting council tax and business rates for themselves. Billing authorities are required by statute to maintain a separate fund (i.e. the *Collection Fund*) for the collection and distribution of amounts due in respect of council tax and business rates. Under the legislative framework for the *Collection Fund*, billing authorities, major preceptors and central government share proportionately the risks and rewards that the amount of council tax and business rates collected could be less or more than predicted.

Accounting for Council Tax and Business Rates

The council tax and business rates income included in the **Comprehensive Income and Expenditure Statement** is the Council's share of accrued income for the year. However, regulations determine the amount of council tax and business rates that must be included in the Council's *General Fund*. Therefore, the difference between the income included in the **Comprehensive Income and Expenditure Statement** and the amount required by regulation to be credited to the *General Fund* is taken to the *Collection Fund Adjustment Account* and included as a reconciling item in the *Movement in Reserves Statement*. The **Statement of Financial Position** (Balance Sheet) includes the Council's share of the end of year balances in respect of council tax and business rates relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

Where debtor balances for the above are identified as impaired because of a likelihood arising from a past event that payments due are under the statutory arrangements will not be made, the asset is written down and a change made to the taxation and non-specific grant income and expenditure line in the **Comprehensive Income and Expenditure Statement**. The impairment loss is measured as the difference between the carrying amount and the revised future cash flows.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

aa) Minimum Revenue Provision

The Council is not required to use council tax to fund depreciation, revaluation and impairment losses or amortisation of non-current assets. However, it is required to make an annual contribution from revenue towards provision for the reduction in its overall borrowing requirement equal to either an amount calculated on a prudent basis or as determined by the Council in accordance with statutory guidance.

39. ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT HAVE NOT YET BEEN ADOPTED

The Code of Practice on Local Authority Accounting in the United Kingdom 2024/25 (the Code) introduces changes in accounting policies that will have to be adopted fully by the Council in the 2024/25 financial statements i.e. from 1 April 2024.

The Council is required to disclose information relating to the impact of the accounting change on the financial statements as a result of the adoption by the Code of a new/amended standard that has been issued but is not yet required to be adopted by the Council.

For the 2024/25 financial year, the Council must implement IFRS 16 Leases, applying the provisions as they have been adopted in the 2024/25 Accounting Code.

The main impact of IFRS 16 will relate to property that the Council holds under operating leases, for which assets and liabilities are not recognised and rents are generally charged as revenue expenditure when they are payable. Under IFRS 16, the accounting treatment for all leases (except those with a term of less than 12 months and those involving low value items) will be to recognise a right-of-use asset in the Balance Sheet, measuring the value of the Council's right to use the property over the remaining term of the lease. The Balance Sheet will also include a liability for the rents payable before the lease expires.

When rents are paid, they will be applied partly to write down the liability and partly charged as interest on the outstanding liability. The cost of the right-of-use asset will be reflected in depreciation charges in the Comprehensive Income and Expenditure Statement. However, statutory arrangements are in place that will allow the impact on the General Fund Balance to be unchanged – i.e., that the overall charge for each year will be the rents payable in that year.

Based on the minimum lease payments outstanding at 31 March 2024 disclosed in Note 33 - Leases, it is estimated that the transition will result in the recognition of new assets and liabilities in the Balance Sheet of £267,000.

SECTION 3. NOTES TO THE FINANCIAL STATEMENTS

40. CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies set out in Note 38, the Authority has had to make certain judgements about complex transactions or those involving uncertainty about future events. The main critical judgement made in the Statement of Accounts is:

- The cost drivers used to apportion Shared Service costs are appropriate and result in recharges which fairly reflect actual workloads and costs. The methodology for the apportionment of costs (predominantly staffing costs) are split on a defined basis which reflects the level of caseload attributable to each individual service. The methodology and mechanisms used to calculate the cost allocations are reviewed and reported to the Audit and Governance Committee on an annual basis. The final actual shared services split formulae are adjusted if they exceed a tolerance level of 3% from the original estimate.

SECTION 4. COLLECTION FUND

COLLECTION FUND FOR THE YEAR ENDED 31 MARCH 2024

This account reflects the statutory requirements for the Council as a billing Authority to maintain a separate Collection Fund. The statement shows the transactions of the billing Authority in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and business rates.

2022/23 Business Rates £000	2022/23 Council Tax £000		2023/24 Business Rates £000	2023/24 Council Tax £000

SECTION 4. COLLECTION FUND

1. Council Tax and Council Tax Base

In 2023/24, the Council's average Band D council tax was £2,261.19 (£2,155.30 in 2022/23). The charge for each band is a ratio of band D.

The 2023/24 charges therefore were:

Band	Ratio to Band D	Council Tax (£)
Disabled A	5/9	1,256.22
A	6/9	1,507.46
B	7/9	1,758.70
C	8/9	2,009.95
D	1	2,261.19
E	11/9	2,763.68
F	13/9	3,266.16
G	15/9	3,768.65
H	18/9	4,522.38

These charges are before any appropriate discounts. The council tax base, which is used in the tax calculation, is based on the number of dwellings in each band on the listing produced by the Listing Officer. This is adjusted for exemptions, discounts, disabled banding changes, appeals and new builds. The tax base estimate for 2023/24 was **39,949.00** as calculated below (39,139.70 in 2022/23).

Band	Dwellings per Valuation List	Adjustment for Disabled Banding Appeals, Discounts and Exemptions	Revised Dwellings	Ratio to Band D	Band D Equivalent
Disabled A	-	11.75	11.75	5/9	6.53
A	5,117	(912.50)	4,204.50	6/9	2,803.00
B	8,916	(1,104.00)	7,812.00	7/9	6,076.00
C	9,120	(898.75)	8,221.25	8/9	7,307.78
D	8,261	(493.75)	7,767.25	1	7,767.25
E	7,240	(493.00)	6,747.00	11/9	8,246.33
F	3,993	(213.50)	3,779.50	13/9	5,459.28
G	3,119	(158.00)	2,961.00	15/9	4,935.00
H	357	(20.50)	336.50	18/9	673.00
Total	46,123.00	(4,282.25)	41,840.75		43,274.17
Less allowance for non-collection					(865.48)
Plus adjustment for armed forces dwellings					71.00
Other adjustments including council tax support					(2,530.69)
Tax base					39,949.00

SECTION 4. COLLECTION FUND

2. Rateable Value

The total business rates rateable value at 31 March 2024 was £94,678,397. This compares to £88,573,592 at 31 March 2023. The standard business rates multiplier was 51.2p in 2023/24 (2022/23 51.2p). Without reliefs this would generate a total income of £48,475,339.26 (2022/23 £45,349,679.10). These figures are a snapshot only and differ from the value of business rate bills issued due to changes in rateable values during the year, small business rate relief, void properties and charitable relief. In 2023/24 there was a new Rating List which increased the overall rateable value compared to the previous year. The Government also continued to fund a Retail, Hospitality and Leisure Relief scheme.

3. Collection Fund balance

2022/23 Business Rates* £000	2022/23 Council Tax £000		2023/24 Business Rates* £000	2023/24 Council Tax £000
6,351	(2,743)	Fund balance at 1 April	(5,957)	(2,832)
(12,308)	(89)	Deficit/(surplus) for year	7,158	930
(5,957)	(2,832)	Fund balance as at 31 March – deficit/(surplus)	1,201	(1,902)

The balance on the Collection Fund is split between the preceptors as follows:

2022/23 Business Rates* £000	2022/23 Council Tax £000		2023/24 Business Rates* £000	2023/24 Council Tax £000
(2,978)	-	Central Government	601	-
(536)	(2,045)	Devon County Council	108	(1,376)
-	(324)	Devon and Cornwall Police	-	(220)
(60)	(121)	Devon and Somerset Fire Authority	12	(80)
(3,574)	(2,490)	Total deficit/(surplus) due to Preceptors	721	(1,676)
(2,383)	(342)	South Hams District Council	480	(226)
(5,957)	(2,832)	Fund balance as at 31 March – deficit/(surplus)	1,201	(1,902)

SECTION 4. COLLECTION FUND

***Business Rates Position**

The Local Government Finance Act 2012 introduced a Business Rates Retention Scheme (BRRS) that enabled local authorities to retain a proportion of the business rates generated in their area, with effect from 1 April 2013. There is a risk of volatility in the system because Councils are exposed to any loss of income if businesses go into decline or if a Council's income from business rates falls due to successful business rates appeals.

The balance on the Business Rates Collection Fund as at 31 March 2024 has moved from a £5.957 million surplus to a £1.201 million deficit. This reflects the volatility in business rates income and the deficit on the Collection Fund is due to the additional business rate relief that was granted by Central Government to retail, hospitality and leisure businesses and funded directly through a section 31 grant.

The Local Government Accounting Regulations for Business Rates mean that there is a timing delay between receipt of the section 31 grant in the General Fund and when it is released into the Collection Fund. There is funding in the Business Rates S31 Compensation Grant earmarked reserve (£3.217 million) to offset this deficit at 31 March 2024 which will be applied in 2024/25. This reserve is a holding account.

The section 31 grant is to reimburse the Council for the business rate relief which was awarded to businesses by the Government (75% rate relief for businesses in the retail, hospitality and leisure sector, up to a cash cap of £110,000 per business).

The Council has a collection rate of 98.9% for business rates in 2023/24, which will put the Council in the top quartile nationally for its collection of business rates income.

Monies are set aside in the Business Rates Retention earmarked reserve to mitigate the impact of volatility in business rates income due to the complex accounting arrangements for business rates.

Some business rates income is due to timing differences in the way the Collection Fund operates and part of the funding will be needed to meet future years' budgets for business rates, in particular when business rates baselines are re-set.

Council Tax Position

The Council has a collection rate of 98.35% for council tax in 2023/24, which will put the Council in the top quartile nationally for its collection of council tax income.

SECTION 5. STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS.

The Authority's responsibilities

The Authority is required to:

- make arrangements for the proper administration of its financial affairs and to secure that one of its officers (the Chief Financial Officer) has responsibility for the administration of those affairs. In this Authority, that officer is the Section 151 Officer and Corporate Director of Strategic Finance;
- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets; and
- approve the Statement of Accounts

The Chief Financial Officer's responsibilities

The Chief Financial Officer is responsible for the preparation of the Authority's Statement of Accounts (which includes the financial statements) in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom ('the Code').

In preparing this Statement of Accounts, the Chief Financial Officer has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code;
- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.
- assessed the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- used the going concern basis of accounting on the assumption that the functions of the Authority will continue in operational existence for the foreseeable future; and
- maintained such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

I certify that the Statement of Accounts gives a true and fair view of the financial position of the Authority at the reporting date and of its income and expenditure for the year ended 31 March 2024.

The Statement of Accounts is unaudited and may be subject to change.

.....

Lisa Buckle BSc (Hons), ACA
Corporate Director of Strategic Finance (Section 151 Officer)

15 July 2024

SECTION 5. STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS.

Approval of the Statement of Accounts

I confirm that these accounts were approved by the Audit and Governance Committee at its meeting held on TBA.

Signed on behalf of South Hams District Council

.....

Councillor L Bonham

Chairman of the Audit and Governance Committee

SECTION 6. AUDITORS REPORT.

The Auditors' report will be received following the annual audit of the accounts.

SECTION 7. GLOSSARY OF TERMS

ACCRUALS	A sum included in the accounts to cover income or expenditure attributable to an accounting period for goods received or works done, but for which payment has not been received/made by the end date of the period for which the accounts have been prepared.
ACTUARIAL GAINS AND LOSSES	These are changes in actuarial deficits or surpluses that arise because either actual experience or events have not been exactly the same as the assumptions adopted at the previous valuation (experience gains and losses) or the actuarial assumptions have changed.
BALANCES	The surplus or deficit on any account at the end of the year. Amounts in excess of that required for day to day working may be used to reduce the demand on the Collection Fund.
CAPITAL EXPENDITURE	Expenditure on the acquisition of an asset or expenditure which adds to and not merely maintains the value of an existing asset.
CAPITAL RECEIPTS	Income received from sale of assets which is available to finance other capital expenditure or to repay debt on assets financed from loan.
CHARTERED INSTITUTE OF PUBLIC FINANCE AND ACCOUNTANCY (CIPFA)	The governing body responsible for issuing the statement of recommended practice to prepare the accounts.
COLLECTION FUND	A separate fund which must be maintained by a district for the proper administration of council tax and business rates.
CURRENT SERVICE COST	Amount chargeable to Services based on the Actuary's assessment of pension liabilities arising and chargeable to the financial year.
CURTAILMENTS	This is the amount the Actuary estimates as the cost to the Authority of events that reduce future contributions to the scheme, such as granting early retirement.

SECTION 7. GLOSSARY OF TERMS

DEFINED BENEFIT SCHEME	A pension or other retirement benefit scheme other than a defined contribution scheme. Usually, the scheme rules define the benefits independently of the contributions payable and the benefits are not directly related to the investments of the scheme. The scheme may be funded or unfunded (including notionally funded).
DEMAND	The charging authorities own Demand is, in effect, its precept on the fund.
FAIR VALUE	The price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.
FEES AND CHARGES	In addition to the income from charge payers and the Government, local authorities charge for services, including Planning Consents, Hire of Sporting Facilities, Car Parking etc.
FINANCIAL INSTRUMENTS	A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another.
GOVERNMENT GRANTS	Payments by Central Government towards the cost of local authority services, including both Revenue and Capital.
IMPAIRMENT ALLOWANCE (“BAD DEBT PROVISION”)	Provisions against income to prudently allow for non collectible amounts.
INTEREST COST	For the pension fund this represents the discount rate at the start of the accounting period applied to the liabilities during the year based on the assumptions at the start of the accounting period.
INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS) AND THE CODE OF PRACTICE (CODE)	Formal financial reporting standards adopted by the accounting profession and to be applied when dealing with specific topics within its accounting Code. The Code is based on approved accounting standards issued by the International Accounting Standards Board and interpretations of the International Financial Reporting Interpretations Committee, except where these are inconsistent with specific statutory requirements.

SECTION 7. GLOSSARY OF TERMS

MINIMUM REVENUE PROVISION (MRP)	This is a statutory requirement to make an annual calculation of an amount or MRP considered prudent to offset against borrowings made under the Prudential Borrowing rules.
PAST SERVICE COST	These will typically be additional benefits awarded on early retirement. This includes added years or augmentation and unreduced pension benefits awarded before eligible retirement age in the pension scheme.
PRECEPT	The levy made by precepting authorities including the County Council and Parish Councils, on the District Council requiring it to collect the required income from council taxpayers on their behalf.
PROJECTED UNIT METHOD	An accrued benefits valuation method in which the scheme liabilities make allowance for projected earnings.
RATEABLE VALUE	A value placed on all properties subject to Rating. The value is based on a national rent that property could be expected to yield after deducting the cost of repairs.
REVENUE EXPENDITURE	Recurring items of day to day expenditure consisting principally of salaries and wages, and general running expenses etc.
SETTLEMENTS	A settlement will generally occur where there is a bulk transfer out of the Pension Fund or from the employer's share of the Fund to a new contractor's share of the Fund as a result of an outsourcing. It reflects the difference between the IAS19 liability transferred and the assets transferred to settle the liability.
STRAIN ON FUND CONTRIBUTIONS	Additional employers pension contributions as a result of an employee's early retirement.
SUNDRY CREDITORS	Amounts owed by the Council at 31 March.
SUNDRY DEBTORS	Amounts owed to the Council at 31 March.
